Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB (Form 5500) 2020
v. 200204

Part II Beginning of Year Carryover and Prefunding Balances		(a) Carryover balance	(b) Prefunding balance
7	Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	350726843	0
8	Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9	Amount remaining (line 7 minus line 8)	350726843	0
10	Interest on line 9 using prior year's actual return of <u>14.49</u> %	50820320	0
11	Prior year's excess contributions to be added to prefunding balance:		
a	Present value of excess contributions (line 38a from prior year)		0
b(1)	Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.35</u> %		0
b(2)	Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
c	Total available at beginning of current plan year to add to prefunding balance		0
d	Portion of (c) to be added to prefunding balance		0
12	Other reductions in balances due to elections or deemed elections	0	0
13	Balance at beginning of current year (line 9 + line 10 + line 11d - line 12)	401695142	0

Part III Funding Percentages			
14	Funding target attainment percentage	14	138.70%
15	Adjusted funding target attainment percentage	15	142.02%
16	Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	136.74%
17	If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV Contributions and Liquidity Shortfalls							
18 Contributions made to the plan for the plan year by employer(s) and employees:							
(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees		
Totals ▶			18(b)	0	18(c)	0	

19	Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:	
a	Contributions allocated toward unpaid minimum required contributions from prior years	19a 0
b	Contributions made to avoid restrictions adjusted to valuation date	19b 0
c	Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c 0
20	Quarterly contributions and liquidity shortfalls:	
a	Did the plan have a "funding shortfall" for the prior year?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
b	If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner?	<input type="checkbox"/> Yes <input type="checkbox"/> No
c	If line 20a is "Yes," see instructions and complete the following table as applicable:	

Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part V Assumptions Used to Determine Funding Target and Target Normal Cost

21 Discount rate:

a Segment rates:	1st segment: 3.64%	2nd segment: 5.21%	3rd segment: 5.94%	<input type="checkbox"/> N/A, full yield curve used
-------------------------	-----------------------	-----------------------	-----------------------	---

b Applicable month (enter code) **21b** 3

22 Weighted average retirement age **22** 59

23 Mortality table(s) (see instructions) Prescribed - combined Prescribed - separate Substitute

Part VI Miscellaneous Items

24 Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment..... Yes No

25 Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment..... Yes No

26 Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment..... Yes No

27 If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment..... **27**

Part VII Reconciliation of Unpaid Minimum Required Contributions For Prior Years

28 Unpaid minimum required contributions for all prior years.....	28	0
29 Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a).....	29	0
30 Remaining amount of unpaid minimum required contributions (line 28 minus line 29).....	30	0

Part VIII Minimum Required Contribution For Current Year

31 Target normal cost and excess assets (see instructions):

a Target normal cost (line 6).....	31a	68647570
b Excess assets, if applicable, but not greater than line 31a	31b	68647570

32 Amortization installments:	Outstanding Balance	Installment
a Net shortfall amortization installment	0	0
b Waiver amortization installment.....	0	0

33 If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount..... **33**

34 Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)..... **34** 0

	Carryover balance	Prefunding balance	Total balance
35 Balances elected for use to offset funding requirement	0	0	0

36 Additional cash requirement (line 34 minus line 35) **36** 0

37 Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c) **37** 0

38 Present value of excess contributions for current year (see instructions)

a Total (excess, if any, of line 37 over line 36)	38a	0
b Portion included in line 38a attributable to use of prefunding and funding standard carryover balances	38b	

39 Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37) **39** 0

40 Unpaid minimum required contributions for all years..... **40** 0

Part IX Pension Funding Relief Under Pension Relief Act of 2010 (See Instructions)

41 If an election was made to use PRA 2010 funding relief for this plan:

a Schedule elected 2 plus 7 years 15 years

b Eligible plan year(s) for which the election in line 41a was made 2008 2009 2010 2011

Part I Service Provider Information (continued)

3. If you reported on line 2 receipt of indirect compensation, other than eligible indirect compensation, by a service provider, and the service provider is a fiduciary or provides contract administrator, consulting, custodial, investment advisory, investment management, broker, or recordkeeping services, answer the following questions for (a) each source from whom the service provider received \$1,000 or more in indirect compensation and (b) each source for whom the service provider gave you a formula used to determine the indirect compensation instead of an amount or estimated amount of the indirect compensation. Complete as many entries as needed to report the required information for each source.

(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation
(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	
(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation
(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	
(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation
(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	

Part II Service Providers Who Fail or Refuse to Provide Information

4 Provide, to the extent possible, the following information for each service provider who failed or refused to provide the information necessary to complete this Schedule.

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

Part III Termination Information on Accountants and Enrolled Actuaries (see instructions)
(complete as many entries as needed)

**SCHEDULE D
(Form 5500)**

Department of the Treasury
Internal Revenue Service

Department of Labor
Employee Benefits Security Administration

DFE/Participating Plan Information

This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA).

▶ **File as an attachment to Form 5500.**

OMB No. 1210-0110

2020

This Form is Open to Public Inspection.

For calendar plan year 2020 or fiscal plan year beginning 01/01/2020 and ending 12/31/2020

A Name of plan <u>NOKIA RETIREMENT INCOME PLAN</u>	B Three-digit plan number (PN) ▶ <u>001</u>
C Plan or DFE sponsor's name as shown on line 2a of Form 5500 <u>NOKIA OF AMERICA CORPORATION</u>	D Employer Identification Number (EIN) <u>22-3408857</u>

Part I Information on interests in MTIAs, CCTs, PSAs, and 103-12 IEs (to be completed by plans and DFEs)
(Complete as many entries as needed to report all interests in DFEs)

a Name of MTIA, CCT, PSA, or 103-12 IE: <u>LUCENT TECH INC MASTER PENSION TRUS</u>		
b Name of sponsor of entity listed in (a): <u>NOKIA OF AMERICA CORPORATION</u>		
c EIN-PN <u>22-3463544-001</u>	d Entity code <u>M</u>	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions) <u>19311789000</u>
a Name of MTIA, CCT, PSA, or 103-12 IE: <u>JPMCB LIQUIDITY FUND</u>		
b Name of sponsor of entity listed in (a): <u>JPMORGAN CHASE BANK, N.A.</u>		
c EIN-PN <u>13-6285055-001</u>	d Entity code <u>C</u>	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions) <u>2102000</u>
a Name of MTIA, CCT, PSA, or 103-12 IE:		
b Name of sponsor of entity listed in (a):		
c EIN-PN	d Entity code	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions)
a Name of MTIA, CCT, PSA, or 103-12 IE:		
b Name of sponsor of entity listed in (a):		
c EIN-PN	d Entity code	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions)
a Name of MTIA, CCT, PSA, or 103-12 IE:		
b Name of sponsor of entity listed in (a):		
c EIN-PN	d Entity code	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions)
a Name of MTIA, CCT, PSA, or 103-12 IE:		
b Name of sponsor of entity listed in (a):		
c EIN-PN	d Entity code	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions)
a Name of MTIA, CCT, PSA, or 103-12 IE:		
b Name of sponsor of entity listed in (a):		
c EIN-PN	d Entity code	e Dollar value of interest in MTIA, CCT, PSA, or 103-12 IE at end of year (see instructions)

SCHEDULE H (Form 5500) <small>Department of the Treasury Internal Revenue Service</small> <small>Department of Labor Employee Benefits Security Administration</small> <small>Pension Benefit Guaranty Corporation</small>	Financial Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	<small>OMB No. 1210-0110</small> 2020 This Form is Open to Public Inspection
--	--	--

For calendar plan year 2020 or fiscal plan year beginning 01/01/2020 and ending 12/31/2020

A Name of plan <u>NOKIA RETIREMENT INCOME PLAN</u>	B Three-digit plan number (PN) ▶	<u>001</u>
C Plan sponsor's name as shown on line 2a of Form 5500 <u>NOKIA OF AMERICA CORPORATION</u>	D Employer Identification Number (EIN) <u>22-3408857</u>	

Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Assets		(a) Beginning of Year	(b) End of Year
a Total noninterest-bearing cash.....	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)		
(2) Participant contributions.....	1b(2)		
(3) Other	1b(3)	2122000	673000
c General investments:			
(1) Interest-bearing cash (include money market accounts & certificates of deposit)	1c(1)		
(2) U.S. Government securities	1c(2)		
(3) Corporate debt instruments (other than employer securities):			
(A) Preferred	1c(3)(A)		
(B) All other	1c(3)(B)		
(4) Corporate stocks (other than employer securities):			
(A) Preferred	1c(4)(A)		
(B) Common	1c(4)(B)		
(5) Partnership/joint venture interests	1c(5)		
(6) Real estate (other than employer real property)	1c(6)		
(7) Loans (other than to participants)	1c(7)		
(8) Participant loans	1c(8)		
(9) Value of interest in common/collective trusts.....	1c(9)	2279000	2102000
(10) Value of interest in pooled separate accounts	1c(10)		
(11) Value of interest in master trust investment accounts.....	1c(11)	17815230000	19311789000
(12) Value of interest in 103-12 investment entities	1c(12)		
(13) Value of interest in registered investment companies (e.g., mutual funds)	1c(13)		
(14) Value of funds held in insurance company general account (unallocated contracts).....	1c(14)		
(15) Other.....	1c(15)		

		(a) Beginning of Year	(b) End of Year
1d	Employer-related investments:		
(1)	Employer securities.....	1d(1)	
(2)	Employer real property.....	1d(2)	
e	Buildings and other property used in plan operation.....	1e	
f	Total assets (add all amounts in lines 1a through 1e).....	1f	17819631000 19314564000
Liabilities			
g	Benefit claims payable.....	1g	
h	Operating payables.....	1h	1366000 1208000
i	Acquisition indebtedness.....	1i	
j	Other liabilities.....	1j	
k	Total liabilities (add all amounts in lines 1g through 1j).....	1k	1366000 1208000
Net Assets			
l	Net assets (subtract line 1k from line 1f).....	1l	17818265000 19313356000

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

		(a) Amount	(b) Total
Income			
a	Contributions:		
(1)	Received or receivable in cash from: (A) Employers.....	2a(1)(A)	
	(B) Participants.....	2a(1)(B)	
	(C) Others (including rollovers).....	2a(1)(C)	
(2)	Noncash contributions.....	2a(2)	
(3)	Total contributions. Add lines 2a(1)(A) , (B) , (C) , and line 2a(2)	2a(3)	0
b	Earnings on investments:		
(1)	Interest:		
	(A) Interest-bearing cash (including money market accounts and certificates of deposit).....	2b(1)(A)	
	(B) U.S. Government securities.....	2b(1)(B)	
	(C) Corporate debt instruments.....	2b(1)(C)	
	(D) Loans (other than to participants).....	2b(1)(D)	
	(E) Participant loans.....	2b(1)(E)	
	(F) Other.....	2b(1)(F)	
	(G) Total interest. Add lines 2b(1)(A) through (F)	2b(1)(G)	27000
(2)	Dividends: (A) Preferred stock.....	2b(2)(A)	
	(B) Common stock.....	2b(2)(B)	
	(C) Registered investment company shares (e.g. mutual funds).....	2b(2)(C)	
	(D) Total dividends. Add lines 2b(2)(A) , (B) , and (C)	2b(2)(D)	
(3)	Rents.....	2b(3)	
(4)	Net gain (loss) on sale of assets: (A) Aggregate proceeds.....	2b(4)(A)	
	(B) Aggregate carrying amount (see instructions).....	2b(4)(B)	
	(C) Subtract line 2b(4)(B) from line 2b(4)(A) and enter result.....	2b(4)(C)	
(5)	Unrealized appreciation (depreciation) of assets: (A) Real estate.....	2b(5)(A)	
	(B) Other.....	2b(5)(B)	
	(C) Total unrealized appreciation of assets. Add lines 2b(5)(A) and (B)	2b(5)(C)	

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts.....	2b(6)		
(7) Net investment gain (loss) from pooled separate accounts.....	2b(7)		
(8) Net investment gain (loss) from master trust investment accounts	2b(8)		2831439000
(9) Net investment gain (loss) from 103-12 investment entities	2b(9)		
(10) Net investment gain (loss) from registered investment companies (e.g., mutual funds)	2b(10)		
c Other income	2c		
d Total income. Add all income amounts in column (b) and enter total.....	2d		2831466000

Expenses

e Benefit payment and payments to provide benefits:			
(1) Directly to participants or beneficiaries, including direct rollovers.....	2e(1)	1320801000	
(2) To insurance carriers for the provision of benefits	2e(2)		
(3) Other.....	2e(3)		
(4) Total benefit payments. Add lines 2e(1) through (3)	2e(4)		1320801000
f Corrective distributions (see instructions)	2f		
g Certain deemed distributions of participant loans (see instructions).....	2g		
h Interest expense.....	2h		
i Administrative expenses: (1) Professional fees	2i(1)		
(2) Contract administrator fees	2i(2)		
(3) Investment advisory and management fees	2i(3)		
(4) Other.....	2i(4)	15309000	
(5) Total administrative expenses. Add lines 2i(1) through (4)	2i(5)		15309000
j Total expenses. Add all expense amounts in column (b) and enter total.....	2j		1336110000

Net Income and Reconciliation

k Net income (loss). Subtract line 2j from line 2d.....	2k		1495356000
l Transfers of assets:			
(1) To this plan.....	2l(1)		921000
(2) From this plan	2l(2)		1186000

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **DELOITTE & TOUCHE LLP**

(2) EIN: **13-3891517**

d The opinion of an independent qualified public accountant is **not attached** because:

(1) This form is filed for a CCT, PSA, or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

	Yes	No	Amount
4a		X	

		Yes	No	Amount
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)	4b		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)	4c		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)	4d		X	
e Was this plan covered by a fidelity bond?	4e	X		12000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?	4f		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?	4g		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?	4h		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.).....	4i	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.).....	4j	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?	4k		X	
l Has the plan failed to provide any benefit when due under the plan?	4l		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.).....	4m			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.....	4n			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... Yes No
 If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)
VERIZON MANAGEMENT PENSION PLAN	13-1675522	001

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) Yes No Not determined
 If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 4298981.

SCHEDULE R (Form 5500) <small>Department of the Treasury Internal Revenue Service</small> <small>Department of Labor Employee Benefits Security Administration</small> <small>Pension Benefit Guaranty Corporation</small>	Retirement Plan Information This schedule is required to be filed under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	<small>OMB No. 1210-0110</small> 2020 This Form is Open to Public Inspection.
--	---	---

For calendar plan year 2020 or fiscal plan year beginning 01/01/2020 and ending 12/31/2020

A Name of plan <u>NOKIA RETIREMENT INCOME PLAN</u>	B Three-digit plan number (PN) ▶	<u>001</u>
C Plan sponsor's name as shown on line 2a of Form 5500 <u>NOKIA OF AMERICA CORPORATION</u>	D Employer Identification Number (EIN) <u>22-3408857</u>	

Part I	Distributions
---------------	----------------------

All references to distributions relate only to payments of benefits during the plan year.

1 Total value of distributions paid in property other than in cash or the forms of property specified in the instructions.....	1	0
---	---	---

2 Enter the EIN(s) of payor(s) who paid benefits on behalf of the plan to participants or beneficiaries during the year (if more than two, enter EINs of the two payors who paid the greatest dollar amounts of benefits):
EIN(s): 20-2387942

Profit-sharing plans, ESOPs, and stock bonus plans, skip line 3.

3 Number of participants (living or deceased) whose benefits were distributed in a single sum, during the plan year	3	931
--	---	-----

Part II	Funding Information (If the plan is not subject to the minimum funding requirements of section 412 of the Internal Revenue Code or ERISA section 302, skip this Part.)
----------------	---

4 Is the plan administrator making an election under Code section 412(d)(2) or ERISA section 302(d)(2)? Yes No N/A
If the plan is a defined benefit plan, go to line 8.

5 If a waiver of the minimum funding standard for a prior year is being amortized in this plan year, see instructions and enter the date of the ruling letter granting the waiver. **Date:** Month _____ Day _____ Year _____
If you completed line 5, complete lines 3, 9, and 10 of Schedule MB and do not complete the remainder of this schedule.

6 a Enter the minimum required contribution for this plan year (include any prior year accumulated funding deficiency not waived)	6a	
b Enter the amount contributed by the employer to the plan for this plan year	6b	
c Subtract the amount in line 6b from the amount in line 6a. Enter the result (enter a minus sign to the left of a negative amount).....	6c	

If you completed line 6c, skip lines 8 and 9.

7 Will the minimum funding amount reported on line 6c be met by the funding deadline? Yes No N/A

8 If a change in actuarial cost method was made for this plan year pursuant to a revenue procedure or other authority providing automatic approval for the change or a class ruling letter, does the plan sponsor or plan administrator agree with the change? Yes No N/A

Part III	Amendments
-----------------	-------------------

9 If this is a defined benefit pension plan, were any amendments adopted during this plan year that increased or decreased the value of benefits? If yes, check the appropriate box. If no, check the "No" box..... Increase Decrease Both No

Part IV	ESOPs (see instructions). If this is not a plan described under section 409(a) or 4975(e)(7) of the Internal Revenue Code, skip this Part.
----------------	---

10 Were unallocated employer securities or proceeds from the sale of unallocated securities used to repay any exempt loan? Yes No

11 a Does the ESOP hold any preferred stock? Yes No

b If the ESOP has an outstanding exempt loan with the employer as lender, is such loan part of a "back-to-back" loan? (See instructions for definition of "back-to-back" loan.) Yes No

12 Does the ESOP hold any stock that is not readily tradable on an established securities market? Yes No

Part V Additional Information for Multiemployer Defined Benefit Pension Plans

13 Enter the following information for each employer that contributed more than 5% of total contributions to the plan during the plan year (measured in dollars). See instructions. *Complete as many entries as needed to report all applicable employers.*

INDEPENDENT AUDITORS' REPORT

The Plan Administrator
of the Nokia Retirement Income Plan

We have audited the accompanying financial statements of Nokia Retirement Income Plan (the "Plan"), which comprise the statements of net assets available for pension benefits and of accumulated plan benefits as of December 31, 2020, and the related statements of changes in net assets available for pension benefits and of changes in accumulated plan benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Nokia Retirement Income Plan as of December 31, 2020, and the changes in its financial status for the year ended December 31, 2020, in accordance with accounting principles generally accepted in the United States of America.

Predecessor Auditor's Opinion on 2019 Financial Statements

The statement of net assets available for benefits and of accumulated plan benefits of the Plan as of December 31, 2019, was audited by predecessor auditors. Their report, dated September 10, 2020, indicated that the statements of net assets available for benefits and of accumulated plan benefits presented fairly, in all material respects, the net assets available for benefits and of accumulated plan benefits of the Plan as of December 31, 2019 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedules

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2020 and schedule of reportable transactions for the year ended December 31, 2020 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such schedules are the responsibility of the Plan's management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. These schedules have been subjected to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such schedules directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedules are fairly stated in all material respects in relation to the financial statements as a whole.

(In Thousands)

1. Description of the Plan

The following description of the Nokia Retirement Income Plan (the Plan or NRIP) provides only general information. Participants and others should refer to the Plan document and the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established as of October 1, 1996 by Lucent Technologies Inc. (later known as Alcatel-Lucent USA Inc. and, since January 1, 2018, known as Nokia of America Corporation) (the Company and Plan Administrator). The Plan is a successor to the AT&T Management Pension Plan, in effect as of September 30, 1996, with respect to individuals transferred to the Plan pursuant to the Employee Benefits Agreement dated as of February 1, 1996, as amended, between AT&T Corp. and the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan covers most domestic non-represented employees of the Company, providing a "cash balance" type benefit, called the Cash Account Program (CAP). Effective January 1, 2017, eligible employees of Nokia Solutions and Networks US LLC became participants in the CAP. Effective on January 1, 2019, substantially all of the employees of Nokia USA Inc. became employees of the Company and thus eligible to participate in the CAP (provided they otherwise met the Plan's eligibility requirements). There is no vesting schedule for the CAP; participants in the CAP are 100% vested in their CAP benefit. Other principle benefit programs under the Plan include the Account Balance Program (frozen in 2009) and the Service-Based Program (also frozen in 2009).

The Plan is the successor by merger to various defined benefit plans previously maintained by AG Communication Systems Corporation, Alcatel USA, Inc., Alcatel Data Networks Inc. and Nokia Solutions and Networks US LLC. Finally, the Plan is a transferee plan with respect to various classes of participants and beneficiaries previously covered under the Lucent Technologies Inc. Pension Plan (the LTPP). Their benefits are provided under a program called the Lucent Pension Program (the LPP) within the Plan.

Effective January 1, 2011, Business & Technical Associates who attain eligibility for a service pension or disability pension under the provisions of the Nokia Retirement Plan (NRP) become participants in this Plan on the day following termination of employment. The associated assets and liabilities for such pension benefit will transfer from the NRP to the Plan.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

1. Description of the Plan (continued)

Cash Account Program

Effective January 1, 2014, all eligible employees accrue a benefit under a program within the Plan called the CAP. The CAP is a “cash balance” pension program. In this regard, the Plan’s recordkeeper establishes recordkeeping accounts under the Plan for each eligible employee. Under the CAP, for each month that the employee remains an eligible employee, the employee receives a pay credit equal to 6% of his or her “CAP-Includible Compensation” (as defined in the Plan document). Participants in the CAP also receive, each month, an interest credit equal to 0.3333% of their CAP account balance. Pay credits continue for as long as the individual remains an eligible employee. Interest credits continue for as long as the individual has a CAP account balance.

Effective July 1, 2020, the tax-deferred pay credit percentage in the CAP for eligible employees who also participate in the Performance Driven Incentive Plan and Metric Driven Incentive Plan was increased by 6 percentage points, from 6% of CAP-Includible Compensation to 12% of CAP-Includible Compensation. Specifically, (i) effective July 1, 2020, a special one-time pay credit equal to 6% of CAP-Includible Compensation paid from January 1, 2020 through June 30, 2020 will be posted to the CAP account for such employees, and (ii) effective August 1, 2020 and the first of each month thereafter, an enhanced pay credit of 6% of CAP-Includible Compensation from the immediately preceding month will be posted to eligible employees CAP accounts for a total of 12% in pay credits.

Account Balance Program

The Account Balance Program is a “cash balance” pension program. It covered eligible employees who were first hired on or after January 1, 1999 and before January 1, 2008. It also covered eligible employees who were rehired within those dates, provided the employee was not previously eligible for a service pension under the Plan’s Service-Based Program. Under the Account Balance Program, the Plan’s recordkeeper established recordkeeping accounts under the Plan for each eligible employee. Individual employee account balances were initially determined and subsequently increased by Age-Based Pay Credits (as defined in the Plan document) and Interest Credits (as defined in the Plan document). After December 31, 2009, participants in the Account Balance Program were no longer credited with Pay Credits.

Interest Credits are the product of the participant’s account balance and an interest rate determined by the Company. The interest rate may vary from 4% to 10%. The interest rate for 2020 and 2019 was 4%. The Account Balance Program will continue to be adjusted annually for Interest Credits in accordance with the terms of the Plan document.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

1. Description of the Plan (continued)

Service-Based Program

Generally, non-represented employees were eligible to participate in the Service-Based Program if they were hired (or rehired) before January 1, 1999 and were on the active payroll of a participating company on December 31, 1998. Provisions covering lapses in service are defined in the Plan document.

Benefits under the Service-Based Program are salary-related. The amount is generally equal to the sum of (a) 1.4% of the participant's average Pensionable Compensation (as defined in the Plan document for the period from January 1, 1994 through December 31, 1998) times years and months of credited service completed prior to December 31, 1998, plus (b) 1.4% of the participant's Pensionable Compensation paid after December 31, 1998 through December 31, 2009. Effective December 31, 2009, Term of Employment completed after December 31, 2009 is not considered in the calculation of a pension benefit under the Plan. However, participants continue to receive service credit for purposes of pension eligibility.

Under the provisions of the Service-Based Program, normal retirement age is sixty-five; however, a participant may elect to retire early at a reduced benefit, as defined by the Plan document.

Participants covered by the Service-Based Program with 15 or more years of service receive monthly disability pension benefits from the Plan that are equal to the normal retirement benefits that have accumulated as of the time they become disabled, less any payments from other sources that are considered of the same general character (for example, workers' compensation benefits).

Benefit payments begin after the employee has been disabled for the 26-week period for which sickness disability payments are payable under the Nokia Short-Term Disability Plan. Disability pension benefits continue to be paid until the earliest of participant recovery, death, or attainment of normal retirement age. Upon attainment of normal retirement age, participants shall begin to receive a service pension equal to the disability pension benefits received under the Plan.

Merged-in plans

The Plan is the successor by merger to the following plans:

- Effective as of December 31, 2004, the AGCS Salaried Pension Plan,
- Effective as of March 1, 2007, the Alcatel USA, Inc. Consolidated Retirement Plan,
- Effective as of June 30, 2010, the Alcatel Data Networks, Inc. Retirement Pension Plan and
- Effective as of December 31, 2017, the Nokia Solutions and Networks Pension Plan.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

1. Description of the Plan (continued)

Lucent Pension Program

Since December 31, 2010, the Company has amended the Plan a number of times to implement various transfers of participants and beneficiaries from the LTPP to the Plan (or from the LTPP to the NRP). These transfers – dubbed “Phase I,” “Phase II,” etc. – include a transfer of benefit obligations and assets to the Plan from the transferor plan. The transfers have been as follows:

- *Phase I.* On December 1, 2010, four groups of participants (and associated surviving spouses, contingent beneficiaries and alternate payees of such participants) were transferred to the Plan from the LTPP: (i) participants who, when last actively employed by the Company or an affiliate of the Company that adopted the LTPP for the benefit of its eligible employees (a Participating Company), were represented for purposes of collective bargaining by unions other than the Communications Workers of America (CWA) or the International Brotherhood of Electrical Workers (IBEW); (ii) participants who, when last actively employed by the Company or a Participating Company, were classified by their employer as “Lucent Business Assistants” (LBAs); (iii) participants who were transferred to the LTPP from the AT&T Pension Plan (the AT&T Plan) and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, represented for purposes of collective bargaining by unions other than the CWA or the IBEW; and (iv) participants who were transferred to the LTPP from the AT&T Plan and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, classified by their employer as non-represented occupational employees.
- *Phase II.* On December 1, 2011, the following group of beneficiaries was transferred to the Plan from the LTPP: surviving spouses and surviving contingent beneficiaries in pay status (i.e., receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.
- *Phase III.* On December 1, 2013, the following groups of participants and beneficiaries were transferred to the Plan from the LTPP: (i) service pension eligible (SPE) participants who, when last actively employed, were *not* represented by the CWA or IBEW; (ii) non-SPE participants; (iii) alternate payees of participants who are in pay status as of September 1, 2013; and (iv) individuals who, as of September 1, 2013, are receiving payment of survivor benefits as the surviving spouses or surviving contingent beneficiaries of deceased participants who died prior to January 1, 2013.

(In Thousands)

1. Description of the Plan (continued)

- *Phase IV.* Phase IV was composed of three transfers as follows:
 - *Phase IV-A.* On December 1, 2015, two groups of participants and beneficiaries were transferred to the Plan from the LTPP: (i) all participants (former employees) in the LTPP as of December 1, 2015, except participants receiving or eligible to receive a service pension or a disability pension who, when last actively employed by a Participating Company (or a predecessor) (or any other entity that was a “participating company” with respect to a prior version of the LTPP or a predecessor plan to the LTPP), were represented for purposes of collective bargaining by the Communications Workers of America (CWA), and (ii) all alternate payees of participants (former employees) in payment status as of September 1, 2015.
 - *Phase IV-B.* On December 1, 2015, the following group of beneficiaries was transferred to NRP from the LTPP: all surviving spouses in payment status as of September 1, 2015 except surviving spouses of participants (former employees) who died on or after January 1, 2015.
 - *Phase IV-C.* On December 31, 2015, the following group of beneficiaries was transferred to NRP from the LTPP: surviving beneficiaries in deferred status as of December 2, 2015 except surviving beneficiaries of participants who died on or after January 1, 2015.

Other programs

During the period commencing on November 3, 2014 and ending on April 30, 2015, certain participants were offered a one-time opportunity to elect immediate commencement of a Disability Replacement Pension Benefit (the DRP Benefit) equal to the actuarial present value of their monthly disability benefit under the Alcatel-Lucent Long Term Disability Plan for Occupational Employees. Payment of the DRP Benefit for those who timely elected to receive this benefit commenced on May 1, 2015.

Effective June 29, 2015, the Plan was amended to offer the Alcatel-Lucent Retiree Lump-Sum Window Program. This Program made available to certain participants, surviving beneficiaries and alternate payees of such participants, who began receiving retirement benefits on or after March 1, 1990 and were in payment status on June 13, 2015 in the form of monthly annuity payments, a one-time opportunity, during a limited window period during 2015, to convert such annuity payments into an actuarially equivalent, single, lump-sum payment. Certain former employees also had the opportunity to change their existing annuity form of payment to a different annuity option.

(In Thousands)

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Contributions and actuarial method

Contributions to the Plan are determined on a going-concern basis by an actuarial cost method known as the Accrued Benefit Cost Method. Under this method, the projected benefit for each future event is allocated to each of the participant's years of service. The normal cost is equal to the actuarial present value of the benefits allocated to the current year and the actuarial accrued liability is equal to the actuarial present value of the total benefits allocated to years prior to the current year. The actuarial accrued liability for inactive participants was determined as the actuarial present value of the benefits expected to be paid. No normal costs are payable with respect to these participants. The minimum required contribution and the maximum permissible contributions are then determined as the sum of the normal cost for all employees, plus amortization, if any, on the initial unfunded liability, change in liability due to plan amendments, assumption changes and experience gain or loss.

Under the Pension Protection Act of 2006, plans are required to use the Accrued Benefit Cost Method to determine the actuarial accrued liability based on a limited choice of mortality and interest assumptions. Contributions are determined as the sum of the normal cost and a seven-year amortization of unfunded liabilities.

The Company's funding policy is to contribute such amounts as are determined on an actuarial basis to meet the minimum funding requirements of ERISA, plus such additional amounts as the Company may determine to be appropriate. No contributions were due as of December 31, 2020 or 2019 under the minimum funding requirements of ERISA.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered to the Company through the valuation date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits as of December 31, 2020 and 2019 are based on census data as of those dates. Benefits payable upon retirement, death, disability or

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

withdrawal are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Aon. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The assumptions used to determine the actuarial present value of accumulated plan benefits as of December 31, 2020 and 2019 include rates of separation, retirement, disability, the Qualified Beneficiary Ratio and the form of payment election, which are based on actual employee experience.

The change in assumptions reflects an increase of \$988,936 due to the change in discount rate, a decrease of (\$120,566) due to the change in mortality rate and an increase of \$27,533 due to a change in the lump sum interest rate and a decrease of (\$22,490) due to experience study assumption changes.

The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2020 for employees and former employees is the Pri-2012 mortality study with white collar adjustment for non-represented participants and blue collar adjustment for represented participants projected generationally from 2012 with Scale MP-2020. For contingent survivors, the contingent survivor rates from the Pri-2012 mortality study with white collar adjustment for non-represented participants and blue collar adjustment for represented participants projected generationally from 2012 with Scale MP-2020 is used. The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2019 is the Pri-2012 mortality study with white collar adjustment for non-represented participants and blue collar adjustment for represented participants projected generationally from 2012 with Scale MP-2019.

Interest assumptions of 3.02% and 3.91% were used to determine the actuarial present values of accumulated plan benefits at December 31, 2020 and 2019, respectively.

Interest assumptions of 4.10% and 4.40% were used to determine the lump sum value for participants electing a single lump sum at December 31, 2020 and 2019, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities and the present value of accumulated plan benefits. These significant estimates include the accumulated plan benefits and the fair value of investments. Actual results could differ materially from these estimates.

The actuarial present value of accumulated plan benefits is reported based on certain estimates and assumptions regarding the future. As of the date of these financial statements, the Company believes these estimates and assumptions concerning matters such as interest rates and participant demographics are reasonable. However, due to the uncertainties inherent in making any estimate or assumption, it is at least reasonably possible that actual results may differ materially from what has been estimated or assumed.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Inter-plan transfers, net

Inter-plan transfers represent transfers between the NRP, the LTTP and the Plan. The inter-plan transfers are recorded on an accrual basis.

Mandatory portability transfers, net

Mandatory portability transfers represent transfers attributable to the Mandatory Portability Agreement, effective January 1, 1985, between and among AT&T, former affiliates and certain other companies, and the Plan. The accumulated benefit obligation at year end does not include the benefits payable to the mandatory portability population. These transfers are recorded on an accrual basis.

Administrative expenses

Certain expenses incurred to administer plan benefits are charged directly to the Plan as incurred or allocated to the Plan. These include, but are not limited to, allocable portions of certain salaries and fringe-benefit costs, and actuarial, pension payroll, recordkeeping, plan audit, and legal fees. All other plan administrative expenses are borne by the Plan Sponsor. Other administrative expenses and investment-related expenses are incurred at the Lucent Technologies Master Pension Trust (MPT) level.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

Pension Benefit Guaranty Corporation (PBGC) premiums

The PBGC was created by ERISA to provide timely and uninterrupted payment of pension benefits. Premium expenses of the Plan are paid by the Plan.

Valuation of investments and income and expense recognition

The Plan's investments consist of its interest in the MPT (see Note 5) and its investment in a commingled fund. Investments in commingled funds are valued at fair value based on the commingled funds' net asset values (NAV) as a practical expedient on the last business day of the Plan year as determined by the trusts' managers. There are currently no redemption restrictions and no unfunded commitments on the commingled fund.

Purchases and sales of investments are recorded on a trade-date basis. Interest income and administrative expenses are recorded on an accrual basis. Dividend income is recorded on investments held as of the ex-dividend dates. The net appreciation/(depreciation) in the fair value of investments includes gains and losses on investments bought and sold as well as held during the year. See Note 5 for additional information.

3. Tax status

No provision for income taxes has been made. In this regard, the Internal Revenue Service (IRS) determined, and informed the Company by a letter dated April 23, 2014, that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code (Code). Subsequent to this determination by the IRS, the Company has adopted various amendments to the Plan, none of which, in the view of the Company, affects the tax-qualified status of the Plan. In this regard, as set forth in Note 10, the IRS has further determined, and informed the Company by a letter dated June 29, 2021, that the Plan continues to be designed in accordance with the applicable provisions of the Code. With respect to the operation of the Plan, the Plan Administrator believes the Plan is being operated in compliance with applicable requirements of the Code. From time to time, the Plan Administrator may uncover operational errors with respect to the Plan, and, when it does, it takes appropriate steps to remedy such errors. In the view of the Company and the Plan Administrator, no such error has affected or affects the tax-qualified status of the Plan. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-qualified status.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

3. Tax status (continued)

U.S. GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Plan termination

The Plan may be terminated or amended at any time by the action of the Board of Directors of the Company. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Subject to conditions set forth in ERISA, in the event of a Plan termination, distributions of the assets available for benefits will occur as follows:

- a. The Plan provides that the net assets available for benefits shall be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA,
- b. To the extent unfunded vested benefits then exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA, and
- c. To the extent that the net assets available for benefits exceed the amounts to be allocated pursuant to the priorities provided for in ERISA, such amounts will be allocated among participants pursuant to the priorities set forth in the Plan and ERISA.

5. Interest in Lucent Technologies Inc. Master Pension Trust

Substantially all of the Plan's investments are in the MPT which was established for the investment of assets of pension plans of the Company. The Bank of New York Mellon (BNYM or the Trustee) is the trustee and custodian of the MPT. The Trustee is responsible for custodial, recordkeeping and other trustee responsibilities pursuant to the Amended and Restated Defined Benefit Master Trust Agreement. Nokia Investment Management Corporation (NIMCO), a wholly-owned direct subsidiary of the Company, is the "named fiduciary" (within the meaning of ERISA) of the MPT and is the fiduciary with authority to direct the Trustee.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

The MPT is structured with multiple Master Trust Units. Each Master Trust Unit represents a particular asset class sleeve within the MPT. Each participating plan owns units of the investment sleeves based on each participating plan's asset allocation policy.

As of December 31, 2020, the following plans participate in the MPT:

- 1) the Plan,
- 2) the LTPP and
- 3) the NRP.

Each participating plan has an undivided interest in the MPT's various investment sleeves. At December 31, 2020 and 2019, the Plan's interest in the net assets of the MPT was 77.64% and 76.79%, respectively.

Investment sleeve data

The following table presents each investment sleeve and the percentage of ownership within the sleeve as of December 31, 2020 and 2019:

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

In the normal course of business, the MPT enters into contracts that contain indemnification clauses. The MPT's maximum exposure under these arrangements is unknown as this would involve future claims that may be against the MPT that have not yet occurred. However, based on operations to date, the MPT expects the risk of loss to be remote and, accordingly, has not accrued any related liabilities.

The Trustee allocates investment income, realized gains or losses, unrealized appreciation or depreciation and certain investment expenses including management fees to the participating plans on the basis of each participating plan's interest in the MPT. NIMCO directs the Trustee to redeem units from the MPT to provide proper liquidity for each participating plan's benefit payments and expenses.

Investment transactions are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date, except for certain dividends from non-U.S. securities which are recorded as soon as the information is available after the ex-dividend date. Realized gains or losses on the sale of all securities except for futures contracts are determined based on average cost. Distributions from limited partnership investments are treated as income, realized gain or loss or return of capital based on information reported by the partnership. Net investment income from real estate and limited partnerships is recorded when distribution notices are received from the real estate properties or limited partnership.

Management fees and expenses	(41,989)
Total redemptions from the MPT	<u>(1,769,781)</u>
Net increase in net assets	<u>\$ 1,675,723</u>

Investment valuation

NIMCO's Valuation Committee (the Committee) oversees the implementation of the valuation policy. The Committee reviews the Custodian's pricing policies and procedures on an annual basis for reasonableness. The Committee also oversees the process of reviewing limited partnership investments and commingled fund financial statements where the NAV as a practical expedient is used to estimate fair value. Additionally, the Committee reviews fair values provided by investment advisors for oil and gas positions and real estate investments. Meetings of the Committee occur on an as needed basis, but at least annually. The Committee is comprised of a group of individuals that have differing perspectives on the valuation process and includes staff persons from NIMCO's Operations, Compliance, Alternative Investments, Public Market Investments groups, and the U.S. Chief Investment Officer. The following discusses the Custodian's valuation process for specific investments.

Investments in securities traded on a national securities exchange or a listed market such as the NASDAQ National Market System, such as common stock and other equities, are valued at the last reported sales prices on the valuation date or if no sale was reported on that date, at amounts that the Committee and Custodian feel are most indicative of the fair value based on information that may include the last reported bid or ask prices on the principal securities exchanges or listed market on which such securities are traded. Government and U.S. Treasury obligations, fixed income securities and securities not traded on an exchange or a listed market are valued at the bid price or the average of the bid and asked prices on the valuation date obtained from published sources where available or are valued with consideration of trading activity or any other relevant information, such as independent broker quotations.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Fair values of investments in private equity investments, publicly-traded investments and other securities for which market quotations are not readily available, or for which market quotations may be considered unreliable, are estimated in good faith by the investment advisors, and/or NIMCO under consistently applied procedures deemed to be appropriate in the given circumstances. The methods and procedures to fair value these investments may include, but are not limited to the consideration of the following factors: comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers, using independent third party valuation specialists and pricing models, time value of money, volatility, current market, and contractual prices of the underlying financial instrument, counterparty non-performance risk, and/or other analytical data relating to the investment and using other available indications of value, as applicable. Because of the inherent uncertainties of valuation, the appraised values and estimated fair values reflected in the financial statements may differ from values that would be determined by negotiation between parties in a sales transaction, and the differences could be material.

Derivative instruments held in the MPT are recorded at fair value. Fair value of derivative instruments is determined using quoted market prices when available. Otherwise, fair value is based on pricing models that consider the time value of money, volatility, and the current market or contractual prices of the underlying financial instruments.

Investments in real estate consist primarily of wholly-owned property investments, the fair values of which are based predominantly upon appraisal reports prepared annually by independent real estate appraisers and reviewed quarterly by third party discretionary investment advisors. The appraisal report values are derived from a reconciliation of four approaches to value -- discounted cash flow, income capitalization, comparable sales and replacement cost. The MPT records real estate properties at their NAV which is the appraised value of the property adjusted for any loans, receivables and/or payables at the property level.

Private equity investments and certain real estate investments are made through limited partnerships that, in turn, invest in venture capital, leveraged buyouts, real estate, private placements and other investments where the structure, risk profile and return potential differ from traditional equity and fixed income investments. Absolute return investments are typically made through limited partnerships which are hedge funds that utilize a broad array of investment strategies, including but not limited to relative value, event-driven, equity long/short, directional, or a combination of all of these strategies. Investments in commingled funds consist of units owned in commingled fund investment vehicles which are primarily invested in domestic and emerging market equity securities.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

The limited partnerships and commingled funds report the NAV of the MPT's investments in such vehicles on a periodic basis to the MPT. Investments in limited partnerships and commingled funds are carried at fair value, which generally represent the MPT's proportionate share of net assets of limited partnerships that are organized as investment companies or that report their holdings at fair value and commingled funds as valued by the general partners or investment managers of these entities. For those limited partnerships that do not carry their holdings at fair value, NIMCO will estimate fair value as described below.

NIMCO follows its valuation policy, and other due diligence and investment procedures, which includes evaluating information provided by management of these vehicles, to determine that such valuations represent fair value. If NIMCO determined that such valuations were not fair value, then NIMCO would provide an estimate of fair value in good faith in accordance with its valuation policy. Due to the inherent uncertainty of valuation for these investment vehicles, NIMCO's estimate of fair value for these limited partnerships may differ from the values that would have been used had a ready and liquid market existed for such investments, and such differences could be material.

The changes in fair values of the MPT's investments in limited partnerships are recorded as net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. The NAVs reported to the MPT by the management of the limited partnerships are net of management fees charged to the MPT's capital account in such limited partnerships.

The MPT did not hold any individual investment that represented greater than 5% of the MPT's net assets at December 31, 2020 and 2019.

At December 31, 2020 and 2019, cash and cash equivalents (and cash equivalents held in the 401(h) accounts) were primarily comprised of cash, foreign cash and short-term investment funds managed by BNYM. The MPT considers all highly liquid investment instruments with a maturity of three months or less at the time of purchase to be cash equivalents. At December 31, 2020, cash, foreign cash and cash equivalents were \$10,517, \$1,961 and \$150,463, respectively. At December 31, 2019, cash, foreign cash and cash equivalents were (\$550), \$1,292 and \$117,814, respectively.

At December 31, 2020 and 2019, due to/from broker was comprised of margin posted for futures contracts and swap collateral.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Foreign currency transactions

Assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the prevailing rates of exchange on the valuation date. Purchases and sales of investments are translated and recorded at rates of exchange prevailing when such investments were purchased or sold. Income and expenses are translated at rates of exchange prevailing when earned or accrued. The MPT does not isolate that portion of the results of operations resulting from changes in foreign currency exchanges rates on investments from fluctuations arising from changes in the valuation of investments. Accordingly, such foreign currency related gains and losses are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT.

Fair value of investments

In accordance with ASC 820, *Fair Value Measurement*, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the asset or liability at the measurement date (an exit price). ASC 820 requires enhanced classification and disclosures about financial instruments carried at fair value and establishes a fair value hierarchy that prioritizes the inputs used in valuation models and techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The types of investments that are classified at this level typically include equities, futures contracts, certain options and U.S. Treasury obligations.

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly (inputs include quoted prices for similar assets or liabilities in active markets, interest rates and yield curves, credit risk assessments, etc.). The types of investments that are classified at this level typically include fixed income securities, fixed income securities and repurchase agreements acquired with cash collateral, government agency securities, forward contracts, certain options, interest rate swaps, and credit default swaps.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Level 3 – Significant unobservable inputs for assets or liabilities. The types of assets and liabilities that are classified at this level include but are not limited to limited partnerships, private placement debentures, bank debt and real estate properties.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Furthermore, the fair value hierarchy does not correspond to a financial instrument's relative liquidity in the market or to its level of risk. Management assumes that any transfers between levels occur at the beginning of any period. Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. The inputs or methodology used for valuing investments and their classification in the fair value hierarchy are not necessarily an indication of the risk associated with those investments.

The MPT is required to disclose the valuation technique and the inputs used to value its Level 3 securities. The following table summarizes the inputs used to value the MPT's Level 3 securities at December 31, 2020 and 2019:

For the Year ended December 31, 2020				
	Fair Value	Valuation Technique	Unobservable Inputs	Range of Inputs
Fixed income securities	\$ 42,555	Broker Quotes ⁵	–	–
Real estate ²	727,517	Discounted Cash Flows (DCF)	Discount Rate	5.75-7.25%
			Exit Capitalization rate ³	5.00-6.75%
			DCF Term	10 years
Oil and gas investments ¹	6,622	DCF	Discount Rate	14%
			Commodity Price – Oil (\$/BBL) ⁴	\$60
			Production Volume – Oil (MMB) ⁴	0.2–0.4 MMB
			Capital and Operating Expenditures (in millions of \$) ⁴	\$0–\$13
For the Year ended December 31, 2019				
	Fair Value	Valuation Technique	Unobservable Inputs	Range of Inputs
Fixed income securities	\$ 41,066	Broker Quotes	–	–
Real estate ²	760,355	DCF	Discount Rate	5.75-8.00%
			Exit Capitalization rate ³	5.00-7.00%
			DCF Term	10 years
Oil and gas investments ¹	9,544	DCF	Discount Rate	14%
			Commodity Price – Oil (\$/BBL) ⁴	\$62
			Production Volume – Oil (MMB) ⁴	0.2–0.5 MMB
			Capital and Operating Expenditures (in millions of \$) ⁴	\$0–\$12

¹ Included in limited partnership investments on the statement of net assets of the MPT.

² Real estate investments are valued utilizing appraisal reports. The primary valuation techniques used in the appraisal reports is Discounted Cash Flows.

³ Exit Capitalization rate is the interest rate at which the net income generated by the property is capitalized to arrive at a residual value at the estimated time of sale of the property.

⁴ Inputs are derived from engineering reserve reports and based on 15-year projections.

⁵ The Level 3 investments have been valued using unadjusted inputs that have not been internally developed by the MPT, including third-party transactions and indicative broker quotes. As a result, there were no unobservable inputs that have been internally developed by the MPT in determining the fair value of investments.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (a) This category includes investments in hedge funds that invest in both long and short investments primarily in U.S. common stocks. Management of the hedge funds has the ability to shift its investment positions to different market segments (value/growth), market capitalization (small/large cap) and net long/short exposure as agreed to in the subscription documents of such hedge funds. Investments in this category can be redeemed at any time subject to the redemption notice period of each respective hedge fund. This category of hedge funds held no investments in side pockets*.
- (b) This category includes investments in hedge funds that invest in equities and fixed income to profit from economic, political and government driven events. At December 31, 2020 and 2019, this category held 5.78% and 5.69%, respectively, of assets in side pockets*.
- (c) This category includes investments in hedge funds that pursue multiple strategies to diversify risks and reduce volatility. These multiple strategy hedge funds invest in common stock, fixed income securities, convertibles, distressed debt, merger arbitrage, macro and real estate securities. At December 31, 2020 and 2019, this category held 0.01% and 0.12%, respectively, of assets in side pockets*. At December 31, 2020 and 2019, 10.76% and 53.05%, respectively, of the assets in this category are locked up.
- (d) This category includes investments in hedge funds that involve taking simultaneous long and short positions in closely related markets in both equities and fixed income instruments. This category of hedge funds has no investments held in side pockets*.
- (e) This category is designed to take advantage of a specific and/or timely investment opportunity due to a market dislocation or similar event. At December 31, 2020 and 2019, none of the assets in this category were locked up. It is estimated that the assets will be realized over the next three to five years.
- (f) This category generally refers to strategies that are more directional in nature, although they can shift opportunistically between having a directional bias and a non-directional bias. This category of hedge funds has no investments held in side pockets*.
- (g) This category includes real estate funds that invest in the U.S., Europe and Asia. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received as the underlying investments of the funds are liquidated. It is estimated that the assets of the funds will be liquidated over the next ten years.

- (h) This category includes venture capital funds that typically invest in equity securities of start-up and growth-oriented companies primarily domiciled in the U.S. The venture capital funds are invested across various sectors including information technology, healthcare, and consumer. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically a period of five to ten years from inception of the funds.
- (i) This category includes buyout funds that typically invest in the equity of mature operating companies primarily domiciled in the U.S. and Western Europe. The buyout funds are invested across various sectors including information technology, consumer, healthcare, industrials, financials and communication. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.
- (j) This category includes fund of funds, debt funds and distressed-oriented funds, structured as private equity vehicles. The special situation funds may invest in debt securities, equity securities or limited partnerships primarily domiciled in the U.S., Asia and Western Europe. The special situations funds are generally diversified across sectors. The fair values of investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions are received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.

* A side pocket is a type of account utilized in hedge funds to segregate riskier or illiquid assets from more liquid investments. Usually, once a position enters a side pocket account, only the current participants in the hedge fund are entitled to a share of it. Future investors will not receive a share of the proceeds should the asset's returns become realized.

Guarantees and commitments

In the normal course of trading activities, the MPT will trade and hold certain derivative contracts which constitute guarantees under U.S. GAAP. Such contracts include written put options and credit default swaps where the MPT is providing credit protection on an underlying instrument. For credit default swaps, the credit rating, obtained from external credit agencies, reflects the current status of the payment/performance risk of a credit default swap. Management views performance risk to be high for derivative contracts whose underlying credit ratings are below BBB-.

	As of December 31, 2020		
	Single Name		
	Sovereign Debt Credit Default Swaps	Corporate Bond Credit Default Swaps	Basket of Investment Grade Securities Swaps

Maximum undiscounted potential future payments	43,550	35,183	23,389
Approximate term of the contracts	Four to five years	One to four years	Four to five years
Credit ratings of underlying instruments	A+ to BBB-	A+ to BBB-	-
	As of December 31, 2019		
	Single Name		
	Sovereign Debt Credit Default Swaps	Corporate Bond Credit Default Swaps	Basket of Investment Grade Securities Swaps
Fair value of sold protection	\$ 556	\$ 645	\$ (64)
Maximum undiscounted potential future payments	39,050	43,780	18,749
Approximate term of the contracts	Two to five years	One to five years	Three to forty-two years
Credit ratings of underlying instruments	A+ to BBB-	A+ to BB+	-

At December 31, 2020, the MPT held fourteen written put options contracts that are expiring in January, February, and March of 2021. The maximum payout for a written put option is limited to the number of contracts written and the related strike prices and amounted to \$412,874. The fair value of the written put options was (\$42) which is included in options written on the fair value hierarchy table.

At December 31, 2019, the MPT held fourteen written put options contracts that expired in January, February, March, and June of 2020. The maximum payout for a written put option is limited to the number of contracts written and the related strike prices and amounted to \$353,835. The fair value of the written put options was (\$54) which is included in options written on the fair value hierarchy table.

Securities lending

The MPT participates in agency securities lending programs with BNYM and Securities Finance Trust Company (SFTC). The securities lending agreements require that the MPT receive U.S. Dollar cash or securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or certain sovereign debt securities as collateral for securities on loan. Collateral equaling 102% of the fair value of domestic securities and 105% of the total fair value of non-U.S. securities on loan is required in accordance with the agreements. As of December 31, 2020 and 2019, the fair value of the securities on loan was \$5,204,021 and \$3,738,165, respectively. Such securities are recorded on the statement of net assets of the MPT. The MPT received collateral from borrowers in the form of cash and securities. The MPT has the ability to repledge (rehypothecate) the cash, however the securities cannot be repledged. As of December 31, 2020 and 2019, the MPT held cash collateral of \$5,301,300 and \$3,825,186, respectively, in connection with loaned securities. The cash collateral was used to enter into repurchase agreements and to purchase various securities consistent with the investment guidelines including instruments issued or fully guaranteed by the U.S. Government or Federal Agencies, certain floating rate notes, commercial paper, certificates of deposit and time deposits. The fair value of these investments acquired with the cash collateral are \$5,302,083 and \$3,826,035 at December 31, 2020 and 2019, respectively, and are included in the cash collateral invested in fixed income securities and repurchase agreements on the statement of net assets of the MPT.

The securities received as collateral for loaned securities which cannot be sold or repledged included U.S. Treasuries and certain sovereign debt securities with fair values of \$126,204 and \$28,245 at December 31, 2020 and 2019, respectively. Such securities are not reflected in the MPT's assets and liabilities. The MPT received interest and securities lending income, net of bank fees, in the amount of \$13,415 in 2020 from the securities lending programs; this income is included in other income on the schedule of changes in net assets of the MPT.

Under the repurchase agreements, the MPT acquires a security for cash subject to an obligation by the counterparty to repurchase, and the MPT to resell, the security at an agreed upon price and time. In these transactions, the MPT takes possession of securities collateralizing the repurchase agreement. The collateral is marked to market daily to ensure that the fair value of the assets remains sufficient to protect the MPT in the event of default by the seller. As of December 31, 2020 and 2019, repurchase agreements entered into with cash collateral were carried at \$2,672,286 and \$1,341,092, respectively, and the fair value of securities which the MPT held as collateral with respect to such repurchase agreements was \$2,878,291 and \$1,422,596, respectively. The carrying amounts approximate fair value and are recorded on the statement of net assets of the MPT in fixed income securities and repurchase agreements acquired with cash collateral.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

The following tables summarize the terms of the MPT's repurchase agreements that are embedded in the securities lending program.

For the year ended December 31, 2020:

Description	Remaining Contractual Maturity of Agreements				Total
	Overnight and Continuous	Up to 30 Days	30-90 Days	Greater than 90 Days	
Repurchase agreements					
U.S. Treasury and agency securities	\$ -	\$ 184,536	\$ -	\$ -	\$ 184,536
Equity securities	-	150,000	1,980,250	357,500	2,487,750
Total	\$ -	\$ 334,536	\$ 1,980,250	\$ 357,500	\$ 2,672,286

For the year ended December 31, 2019:

Description	Remaining Contractual Maturity of Agreements				Total
	Overnight and Continuous	Up to 30 Days	30-90 Days	Greater than 90 Days	
Repurchase agreements					
U.S. Treasury and agency securities	\$ 580,267	\$ -	\$ -	\$ -	\$ 580,267
Equity securities	195,000	-	372,825	193,000	760,825
Total	\$ 775,267	\$ -	\$ 372,825	\$ 193,000	\$ 1,341,092

The MPT bears the risk of loss with respect to the investments purchased with the cash collateral except for repurchase agreements which are indemnified by BNYM and SFTC, respectively. BNYM and SFTC have agreed to indemnify the MPT in the case of default of any borrower pursuant to respective securities lending agreements.

6. Derivative financial instruments

In the ordinary course of business, the MPT enters into various types of derivative transactions through its discretionary investment advisors. Derivative contracts serve as components of the MPT's investment strategies and are utilized to hedge investments to enhance performance and reduce risk to the MPT, as well as for speculative purposes.

Under U.S. GAAP, the MPT is required to disclose its objectives and strategies for using derivatives by primary underlying risk exposure; information about the volume of derivative activity; and disclosures about credit-risk-related contingent features, and concentrations of credit-risk derivatives. Additionally, U.S. GAAP requires the quantitative disclosures of the location and gross fair value of derivative instruments reported in the statement of net assets of the

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

MPT and the gains and losses generated from derivative investing activity during the year ended December 31, 2020 on the schedule of changes in net assets of the MPT.

The MPT invests in derivative contracts with underlying exposure to interest rate risk (interest rate risk contracts) which consist of interest rate swaps, futures contracts and option contracts on fixed income securities; equity risk (equity risk contracts) which consists of index futures and total return swaps; credit risk (credit risk contracts) which consist of credit default swaps and option contracts on credit default swaps; and foreign currency risk (foreign currency risk contracts) which consist of foreign exchange contracts.

Futures contracts

Futures contracts are commitments to purchase or sell securities based on financial indices at a specified price on a future date. The MPT's investment advisors use index futures contracts to manage both short-term asset allocation and the duration of the fixed income portfolio. Most of the contracts have terms of less than one year. The counterparty risk of futures contracts is limited because they are standardized contracts traded on organized exchanges and are subject to daily cash settlement of the net change in value of open contracts. Fluctuations in unrealized gains or losses related to futures contracts are recorded daily until realized on closing. Both realized and unrealized gains or losses are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. Futures contracts require collateral consisting of cash or liquid securities and daily variation margin settlements to be provided to brokers. Outstanding futures contracts held by the MPT consist primarily of S&P 500 index futures, Eurodollar futures, U.S. Treasury Note futures and exchange index futures. The total net fair value of futures contracts at December 31, 2020 and 2019 was (\$4,746) and (\$9,126), respectively, and is included in derivative contracts, at fair value assets and liabilities on the statement of net assets of the MPT.

Forward foreign exchange contracts

In a forward foreign exchange contract, one currency is exchanged for another on an agreed upon date at an agreed upon exchange rate. The MPT's investment advisors use forward foreign exchange contracts to manage the currency risk inherent in owning securities denominated in foreign currencies and to enhance investment returns. Risks arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from fluctuations in the value of a foreign currency relative to the U.S. dollar. Most of the contracts have terms of ninety days or less and are settled in cash. The change in fair value of such contracts is recorded by the MPT as an unrealized gain or loss in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. When the contract

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

is closed, the MPT records a realized gain or loss equal to the difference between the cost of the contract at the time it was opened and the value at the time it was closed. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in the fair value of investments on the schedule of changes in net assets of the MPT.

As of December 31, 2020 and 2019, the MPT held open forward foreign exchange contracts receivable and payable primarily in Australian Dollars, Norwegian Krone, Japanese Yen, New Zealand Dollars, British Pounds, Canadian Dollars, Euros and U.S. Dollars. The total net fair value of forward foreign exchange contracts at December 31, 2020 and 2019 was (\$1,202) and \$234, respectively, and is included in derivative contracts, at fair value assets and liabilities on the statement of net assets of the MPT.

Options

Options are contracts that give the buyer the right, but not the obligation, to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract's stated expiration date. Premiums paid for options purchased are recorded as investments and premiums received for options written/sold are recorded as liabilities. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is realized as a gain or loss. When an option expires, the premium is realized as a gain for options written or as a loss for options purchased. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. The risks include price movements in the underlying securities, the possibility that options markets may be illiquid, or the inability of the counterparties to fulfill their obligations under the contracts.

As of December 31, 2020 and 2019, the MPT held written option contracts with a fair value of (\$60) and (\$89), respectively, which are included in derivative contracts, at fair value liabilities on the statement of net assets of the MPT. The written option contracts are primarily options on government note and bond futures, and interest rate and credit default swaps. As of December 31, 2020 and 2019, the MPT held no purchased options.

6. Derivative financial instruments (continued)

Swap contracts

Swap contracts involve the exchange by the MPT with another party of their respective commitments to pay or receive a series of cash flows calculated by reference to changes in specified prices or rates throughout the lives of the agreements. A realized gain or loss is recorded upon termination or settlement of swap agreements. Unrealized gains or losses are recorded based on the fair value of the swaps. Both realized and unrealized gain and loss are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. The investment advisors retained by the MPT enter into interest rate swaps as part of their investment strategy to hedge exposure to changes in interest rates and to enhance investment returns. The investment advisors also enter into credit default swaps in order to manage the credit exposure in the portfolio and to enhance investment returns.

A credit default swap represents an agreement in which one party, the protection buyer, pays a fixed fee, the premium, in return for a payment by the other party, the protection seller, contingent upon a specified default event relating to an underlying reference asset or pool of assets. While there is no default event, the protection buyer pays the protection seller the periodic premium. If the specified credit event occurs, there is an exchange of cash flows and/or securities designed so that the net payment to the protection buyer reflects the loss incurred by creditors of the reference credit in the event of its default. The nature of the credit event is established by the buyer and seller at the inception of the transaction and such events include bankruptcy, insolvency, rating agency downgrade and failure to meet payment obligations when due. Risks may arise from unanticipated movements in interest rates or the occurrence of a credit event whereby changes in the market values of the underlying financial instruments may be in excess of the amounts shown in the statement of net assets of the MPT.

As of December 31, 2020 and 2019, the MPT had outstanding swap contracts consisting primarily of interest rate swap and credit default swap contracts. The fair value of swap contracts that is included in assets under derivative contracts, at fair value in the statement of net assets of the MPT at December 31, 2020 and 2019 was \$3,416 and \$7,835, respectively. The fair value of swap contracts that are included in liabilities under derivative contracts, at fair value in the statement of net assets of the MPT at December 31, 2020 and 2019 was (\$4,942) and (\$17,377), respectively.

The MPT utilizes its investment advisors to conduct derivative trading on its behalf. Investment advisors enter into International Swaps and Derivatives Association (ISDA) Master Agreements with counterparties. The ISDA Master Agreements contain master netting arrangements that allow amounts owed from the counterparty to be offset with amounts payable to the same counterparty within the same investment advisors account within the MPT. Each investment advisor retains separate ISDA agreements with the MPT's counterparties. Cash collateral associated with the derivatives has not been added or netted against the fair value amounts.

6. Derivative financial instruments (continued)

Information about derivative instruments and derivative activity

The following table sets forth the gross fair value of MPT's derivative asset and liability contracts by major risk type as of December 31, 2020 and 2019, and their location on the fair value hierarchy table in Note 5. The fair value of the various derivative asset and liability contracts are included in the derivative contracts, at fair value assets and liabilities on the statement of net assets of the MPT. The fair values of these derivatives are presented on a gross basis, prior to the application of the impact of counterparty and collateral netting as permitted by the MPT's investment advisors' bilateral ISDA Master Agreements.

Derivative Contracts	Derivative Contracts – Assets		Location on fair value hierarchy table in Note 5	Derivative Contracts – Liabilities		Location on fair value hierarchy table in Note 5
	2020	2019		2020	2019	
Foreign currency risk contracts ¹	\$ 2,367	\$ 1,352	Forward foreign exchange contracts	\$ 3,569	\$ 1,118	Forward foreign exchange contracts
Equity risk contracts ²	2,140	6,812	Futures contracts and swap contracts	4,706	415	Futures contracts and swap contracts
Interest rate risk contracts ³	7,818	21,433	Swap contracts, futures contracts and options purchased	11,551	47,469	Swap contracts, futures contracts and options written
Credit risk contracts ⁴	883	1,574	Swap contracts	916	692	Swap contracts and options written
Total Derivative Contracts	<u>\$ 13,208</u>	<u>\$ 31,171</u>		<u>\$ 20,742</u>	<u>\$ 49,694</u>	

¹ Includes forward foreign exchange contracts.

² Includes total return swaps and equity index futures contracts.

³ Includes interest rate swaps, futures contracts on fixed income securities and written and purchased option contracts on interest rate swaps.

⁴ Includes credit default swaps and options on credit default swap contracts.

The following table sets forth by major risk type the MPT's gains/(losses) related to the trading activities of derivatives for the year ended December 31, 2020, which are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT:

Derivative contracts

Foreign currency risk contracts	\$ (1,695)
Equity risk contracts	(14,386)
Interest rate risk contracts	10,941
Credit risk contracts	(6,809)
Total derivative contracts	<u>\$ (11,949)</u>

6. Derivative financial instruments (continued)

Credit-risk related contingent features

The MPT's derivative contracts are subject to ISDA Master Agreements at the investment advisor account level. The ISDA agreements contain certain covenants and other provisions that may affect the investment advisors account within the MPT in situations where the MPT is in a net liability position with its counterparties. These provisions require the MPT's investment advisor's account within the MPT to maintain a certain level of net assets or limit the size of certain liability positions. If the MPT were not to meet such provisions, the counterparties to the derivative instruments could, depending on the nature of the agreements, either require the account to post additional collateral in amounts representing a multiple of the original collateral amounts required pursuant to the ISDA Master Agreements or terminate their derivative positions with the account and request immediate payment on all open derivative contracts, after the application of master netting arrangements (credit-risk-related contingent features).

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position, prior to the application of master netting arrangements, as of December 31, 2020 and 2019 was (\$4,942) and (\$17,377), respectively, for which the MPT had posted collateral of \$0 and \$22,210, respectively, in the normal course of business. At December 31, 2020, the MPT had \$3,416 of derivative asset positions that can be utilized as part of the master netting agreement to offset these derivative liabilities. If the credit-risk-related contingent features underlying these instruments in a liability position had been triggered as of December 31, 2020 and 2019 (after offsetting any applicable collateral), and the MPT had to settle these instruments immediately, the MPT would have been required to pay the total amount of the net liability stated above upon demand of the counterparties. The ultimate amounts that may be required as payment to settle the derivative positions in connection with the triggering of such credit contingency features at December 31, 2020 may be different than the net liability amounts stated at December 31, 2020 and such differences could be material.

Offsetting effects

The MPT is required to disclose the impact of offsetting assets and liabilities presented in the statement of net assets of the MPT to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. The assets and liabilities that would be subject to offsetting are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of setoff criteria: the amounts owed by the MPT to another party are determinable, the MPT has the right to set off the amounts owed with the amounts owed by the other party, the MPT intends to setoff, and the MPT's right of offset is enforceable by law.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

When the MPT has a basis to conclude that a legally enforceable netting arrangement exists between the MPT and the counterparty, the MPT may offset these assets and liabilities in its statement of net assets of the MPT. The MPT records its derivative investments on a gross basis in the statement of net assets of the MPT.

The following tables provide disclosure regarding the potential effect of offsetting recognized assets and liabilities presented in the statement of net assets of the MPT had the MPT applied these netting provisions:

For the year ended December 31, 2020:

Description	Assets Presented in the Statement of Net Assets on a Gross Basis ¹	Gross Amounts not Offset in the Statement of Net Assets		Net Amount
		Financial Instruments	Collateral Received	
Securities lending ²	\$ 5,204,021	\$ –	\$ (5,204,021)	\$ –

For the year ended December 31, 2019:

Description	Assets Presented in the Statement of Net Assets on a Gross Basis ¹	Gross Amounts not Offset in the Statement of Net Assets		Net Amount
		Financial Instruments	Collateral Received	
Securities lending ²	\$ 3,738,165	\$ –	\$ (3,738,165)	\$ –

¹ The MPT does not offset in the statement of net assets of the MPT.

² The amount of collateral presented is limited such that the net amount should not be less than zero.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

7. Risks

In the normal course of its business, the MPT trades various financial instruments and enters into various investment activities with a variety of risks including market, interest rate, credit, liquidity, and risks associated with foreign investing. Additionally, the MPT bears certain risks related to conducting business with its counterparties.

Market risk is the risk of potential adverse changes to the value of financial instruments resulting from changes in market prices. If the markets should move against one or more positions in any of the financial instruments the MPT holds, the MPT could incur losses greater than the amounts reflected in the statement of net assets of the MPT. The MPT's exposure to market risk may be due to many factors, including the movements in interest rates, equities, foreign exchange rates, indices, market volatility, and security values underlying derivative instruments.

The MPT trades in derivatives (as described in Note 6), which may include financial futures contracts, forward foreign currency contracts, swaps, and options. These instruments contain, to varying degrees, elements of credit and market risk such that potential maximum loss is in excess of the amounts recognized in the financial statements. The contract or notional amounts of these instruments, which are not included in the financial statements, are indicators of the MPT's activities in particular classes of financial instruments but are not indicative of the associated risk which is generally a smaller percentage of the contract or notional amount. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are taken into consideration. The MPT is subject to market risk with regard to these instruments as it may not be able to realize benefits of the financial instruments and may realize losses, if the value of underlying assets moves unexpectedly because of changes in market conditions.

The MPT enters into forward foreign currency contracts, swaps, options and security lending with various counterparties; therefore, the MPT is exposed to credit risk with such counterparties. Management seeks to limit its credit risk by requiring its counterparties to provide collateral based upon the value of contractual obligations.

Credit risk is the risk that the MPT would incur losses if its counterparties failed to perform pursuant to the terms of their respective obligations or fulfill their obligations to repay amounts being held on behalf of the MPT.

The MPT has a substantial allocation to fixed income debt securities, and as a result, interest rate risk comprises the majority of the risk within the MPT. Interest rate risk is the risk that a fixed income investment's value will change due to a change in the absolute level of interest rates.

The collateral provided by the counterparties is included in investments and due to brokers on the statement of net assets of the MPT. Furthermore, management requires the MPT's investment advisors have in place a well-defined counterparty selection and collateral process and procedures

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

(In Thousands)

7. Risks (continued)

to transact its securities and other investment activities with broker-dealers, banks, and regulated exchanges that the Master Trustee and investment advisors consider to be well-established and financially sound.

The MPT invests in various U.S. and international equity and debt securities. The ability of the issuers of debt securities held by the MPT to meet their obligations may be affected by unique economic developments in a specific country, region, or industry. Until the fixed income securities are sold or mature, the MPT is exposed to credit risk relating to whether the bond issuer will meet its obligation when it becomes due. Failure of the bond issuer to make payments of principal or interest upon the default of the underlying security may result in losses to the MPT. Investing in securities of foreign entities involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign entities may be less liquid and their prices may be more volatile than those of comparable U.S. entities.

The MPT invests in private equity, real estate and absolute return investments, which may be illiquid, can be subject to various restrictions on resale, and there can be no assurance that the MPT will be able to realize the value of such investments in a timely manner. Certain absolute return investments are subject to a “lock up” period on the MPT’s initial investment. As such, there is no assurance that the MPT can realize the value of certain absolute return investments in a timely manner. The MPT’s investments in limited partnerships are subject to various risk factors arising from the investment activities of the underlying vehicles including market, credit and currency risk. Certain partnerships owned by the MPT may transact in short currency contracts, futures, written, and purchased options and swaps exposing the investee partnership to market risk such that potential maximum loss is in excess of the amounts recorded in the limited partnerships’ financial statements. The MPT’s risk of loss is limited to the value of the investments as of December 31, 2020 and 2019, including any unfunded commitments.

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. Global financial markets have experienced and may continue to experience significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on the MPT's net assets will depend on future developments, including the duration and continued spread of the outbreak.

NOKIA RETIREMENT INCOME PLAN

Notes to Financial Statements (continued)

8. Section 420 transfers

In December 2020, as permitted by Section 420 of the Code, the Plan transferred \$76,095 of excess pension assets to an applicable life insurance account of the Plan under the MPT established under Section 420(a) of the Code, pursuant to Section 420 of the Code, to fund a portion of retiree life insurance coverage for eligible retirees. In accordance with Section 420 of the Code, the Plan's investment in the applicable life insurance account may not be used for or diverted to any purpose other than providing applicable life insurance coverage for the eligible participants, as well as administration costs. The related obligation for applicable life insurance coverage is not reported in the Plan's Statements of Accumulated Plan Benefits but is reported as obligations in the Nokia Retiree Welfare Benefits Plan.

9. Party-in-interest and related-party transactions

As described in Note 2, the Plan paid certain administrative expenses of the Plan to various service providers that are deemed parties-in-interest under the provisions of ERISA. The payment of these expenses meets the requirements of one or more prohibited transaction exemptions under ERISA.

Certain MPT investments include fixed income and equity securities of Nokia Corporation (the ultimate parent of the Company). However, such fixed income and equity securities constitute "qualifying employer securities" within the meaning of section 407 of ERISA, and therefore these investments do not constitute non-exempt party-in-interest transactions.

Pursuant to a written fiduciary services agreement between the Company and NIMCO, NIMCO provides fiduciary services and investment management services to the MPT. NIMCO charges the MPT only for the costs that are incurred for providing such services to the MPT. For the year ended December 31, 2020, the MPT incurred fiduciary service fees from NIMCO of \$5,126, which are included in management fees and expenses on the schedule of changes in net assets of the MPT. At December 31, 2020 and 2019, the MPT had a payable due to NIMCO of \$2,360 and \$2,378, respectively, which is included in accrued expenses and other liabilities on the statement of net assets of the MPT.

The Company provides administrative services to the Plan and charges the Plan only for the costs that are incurred for providing such services. For the year ended December 31, 2020, the Plan incurred administrative service fees of \$387, which are reflected in administrative expenses on the statement of changes in net assets available for benefits.

10. Reconciliation of financial statements and Form 5500

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500 related to the applicable life insurance account:

	Amounts per Financial Statements	Applicable Life Insurance Account	Amounts per Form 5500
Transfer to applicable life insurance account	\$ (76,095)	\$ 76,095	\$ –
Benefit payments	(1,244,706)	(76,095)	(1,320,801)

The net assets and related activity of the applicable life insurance account are not included in the financial statements but are included in the Form 5500 because the assets are held by the MPT.

11. Subsequent events

Management has evaluated subsequent events through September 16, 2021, the date the financial statements were available to be issued. There were no material subsequent events that occurred between January 1, 2021 through September 16, 2021 that required disclosure in the financial statements, except the following:

The IRS determined, and informed the Company by a letter dated June 29, 2021, that the Plan continues to be designed in accordance the applicable provisions of the Code.

Normal and Alternate Forms of Pension Benefits	See Table 5
Decrement Timing	Middle of year decrements

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Surviving Spouse Benefit

The female spouse of a male participant is assumed to be two years younger than the male participant. The male spouse of a female participant is assumed to be two years older than the female participant.

Benefit Limits

Projected benefits are limited by the current IRC section 401(a)(17) limit of \$285,000 and the current section 415 maximum benefit of \$230,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2018 Plan Year

5.00% limited to 6.29%

2019 Plan Year

5.25% limited to 6.11%

Actuarial Method

Standard unit credit cost method

Valuation Date

January 1, 2020

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB (Form 5500) 2020
v. 200204

Part II	Beginning of Year Carryover and Prefunding Balances	(a) Carryover balance	(b) Prefunding balance
7	Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	350,726,843	0
8	Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9	Amount remaining (line 7 minus line 8)	350,726,843	0
10	Interest on line 9 using prior year's actual return of <u>14.49%</u>	50,820,320	0
11	Prior year's excess contributions to be added to prefunding balance:		
	a Present value of excess contributions (line 38a from prior year)		0
	b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.35%</u>		0
	b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
	c Total available at beginning of current plan year to add to prefunding balance		0
	d Portion of (c) to be added to prefunding balance		0
12	Other reductions in balances due to elections or deemed elections	0	0
13	Balance at beginning of current year (line 9 + line 10 + line 11d - line 12)	401,695,142	0

Part III	Funding Percentages		
14	Funding target attainment percentage	14	138.70%
15	Adjusted funding target attainment percentage	15	142.02%
16	Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	136.74%
17	If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV	Contributions and Liquidity Shortfalls					
18	Contributions made to the plan for the plan year by employer(s) and employees:					
(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	
Totals ▶			18(b)	0	18(c)	0

19	Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:		
	a Contributions allocated toward unpaid minimum required contributions from prior years	19a	0
	b Contributions made to avoid restrictions adjusted to valuation date	19b	0
	c Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	0
20	Quarterly contributions and liquidity shortfalls:		
	a Did the plan have a "funding shortfall" for the prior year?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	b If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner?		<input type="checkbox"/> Yes <input type="checkbox"/> No
	c If line 20a is "Yes," see instructions and complete the following table as applicable:		
Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part V Assumptions Used to Determine Funding Target and Target Normal Cost

21 Discount rate:				
a Segment rates:	1st segment: 3.64 %	2nd segment: 5.21 %	3rd segment: 5.94 %	<input type="checkbox"/> N/A, full yield curve used
b Applicable month (enter code).....				21b 3
22 Weighted average retirement age				22 59
23 Mortality table(s) (see instructions)	<input type="checkbox"/> Prescribed - combined	<input checked="" type="checkbox"/> Prescribed - separate	<input type="checkbox"/> Substitute	

Part VI Miscellaneous Items

24 Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment.....	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
25 Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
26 Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.....	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
27 If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment.....	27	

Part VII Reconciliation of Unpaid Minimum Required Contributions For Prior Years

28 Unpaid minimum required contributions for all prior years	28	0
29 Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a).....	29	0
30 Remaining amount of unpaid minimum required contributions (line 28 minus line 29)	30	0

Part VIII Minimum Required Contribution For Current Year

31 Target normal cost and excess assets (see instructions):			
a Target normal cost (line 6)	31a	68,647,570	
b Excess assets, if applicable, but not greater than line 31a	31b	68,647,570	
32 Amortization installments:	Outstanding Balance	Installment	
a Net shortfall amortization installment	0	0	
b Waiver amortization installment	0	0	
33 If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount	33		
34 Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)....	34	0	
	Carryover balance	Prefunding balance	Total balance
35 Balances elected for use to offset funding requirement	0	0	0
36 Additional cash requirement (line 34 minus line 35).....	36	0	
37 Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c).....	37	0	
38 Present value of excess contributions for current year (see instructions)			
a Total (excess, if any, of line 37 over line 36)	38a	0	
b Portion included in line 38a attributable to use of prefunding and funding standard carryover balances	38b	0	
39 Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37).....	39	0	
40 Unpaid minimum required contributions for all years	40	0	

Part IX Pension Funding Relief Under Pension Relief Act of 2010 (See Instructions)

41 If an election was made to use PRA 2010 funding relief for this plan:			
a Schedule elected	<input type="checkbox"/> 2 plus 7 years	<input type="checkbox"/> 15 years	
b Eligible plan year(s) for which the election in line 41a was made	<input type="checkbox"/> 2008	<input type="checkbox"/> 2009	<input type="checkbox"/> 2010 <input type="checkbox"/> 2011

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a three-month lookback (as of October 2019), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor
1st Segment Rate	3.64%
2nd Segment Rate	5.21%
3rd Segment Rate	5.94%
Interest Rates for Maximum Funding Purposes	Based on segment rates with a three-month lookback (as of October 2019), without regard to the interest rate stabilization
1st Segment Rate	2.79%
2nd Segment Rate	3.90%
3rd Segment Rate	4.35%
Retirement Rates	See Table 1
Mortality Rates	
Healthy and Disabled	2020 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2019-26
Withdrawal Rates	See Table 2
Disability Rates	See Table 3
Salary Increase Rates	Flat 2.0%
Percent of Participants Who Have Qualified Beneficiaries	See Table 4
Normal and Alternate Forms of Pension Benefits	See Table 5
Decrement Timing	Middle of year decrements

Schedule SB Attachment (Form 5500)—2020 Plan Year
Nokia Retirement Income Plan
EIN: 22-3408857 PN: 001

Surviving Spouse Benefit

The female spouse of a male participant is assumed to be two years younger than the male participant. The male spouse of a female participant is assumed to be two years older than the female participant.

Benefit Limits

Projected benefits are limited by the current IRC section 401(a)(17) limit of \$285,000 and the current section 415 maximum benefit of \$230,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2018 Plan Year

5.00% limited to 6.29%

2019 Plan Year

5.25% limited to 6.11%

Actuarial Method

Standard unit credit cost method

Schedule SB, Part V—Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Alcatel-Lucent Retirement Income Plan (ALRIP) was established as of October 1, 1996 as a result of the restructuring of AT&T. Assets and liabilities for active, inactive, and retired participants in the AT&T Management Pension Plan (“AT&T MPP”) as of that date associated with the business of Lucent Technologies Inc. pursuant to the restructuring were spun off from the AT&T MPP to the Plan. The Plan provisions as of the date of the spin-off were the same as those of the AT&T MPP as of the date of the spin-off. All prior service and compensation under the AT&T MPP were counted for benefit and eligibility purposes under the Plan. At the time of the spin-off, the Plan was called the Lucent Technologies Inc. Management Pension Plan. The Plan was later renamed the Lucent Retirement Income Plan and, still later, the Alcatel-Lucent Retirement Income Plan.

Effective January 1, 2017, the name of the plan was changed from the Alcatel-Lucent Retirement Income Plan to the Nokia Retirement Income Plan (NRIP or the “Plan”).

Effective December 31, 2017, the Nokia Solutions and Networks Pension Plan was merged with and into the NRIP.

Plan Provisions

The Plan is a noncontributory defined benefit plan generally covering domestic management employees. During 2009, the Plan consisted of four distinct pension benefit programs: (1) the legacy-Lucent “Service-Based Program” (generally, for employees hired before 1999), (2) the legacy-Lucent “Account-Balance Program” (generally, for employees hired after 1998 and before 2008 and for employees of acquired companies), (3) the (frozen) plan design associated with the former AGCS Salaried Pension Plan, and (4) the (frozen) plan design

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

associated with the former Alcatel USA, Inc. (“AUSA”) Consolidated Retirement Plan. Effective December 31, 2009, benefit accruals under (1) and (2) were also frozen. The Plan provisions described herein are for the legacy-Lucent Service-Based Program and legacy-Lucent Account-Balance Program only (although, as noted, the values presented herein reflect the AGCS plan merger, the AUSA plan merger and the ADNI plan merger).

Certain participants can transfer their accumulated interest in the Plan to and from other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the Lucent Technologies Inc. Pension Plan to the Plan.

Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries (“2013 LTPP Transferees” of the Phase III transfer) from the LTPP to the Plan.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2001 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess NRIP assets to cover retiree medical claims.

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Employees Hired Before 1999

Pension Amount

For a retirement or vested termination on or after October 19, 1993, but prior to January 1, 1997, the annual pension amount under NRIP was equal to item (1) below. For retirement or vested termination on or after January 1, 1997, but prior to January 1, 1998, it was equal to item (1) below, for monthly benefits paid prior to January 1, 1998, and it was equal to the greater of items (1) or (2) below for monthly benefits paid January 1, 1998, and thereafter. For retirement or vested termination on or after January 1, 1998, but prior to January 1, 1999, the annual pension amount under NRIP is equal to the greatest of items (1), (2) or (3) below. For retirement or vested termination on or after January 1, 1999, it is equal to the greatest of items (1), (2), (3) or (4) below.

- (1) The prior early retirement reduction applied to a frozen benefit of 1.6% of the sum of six-year average compensation for 1987 through 1992 times Net Credited Service as of December 31, 1992, plus total compensation for 1993 through 1997.
- (2) The prior early retirement reduction applied to a transition benefit of 1.6% of six-year average compensation for 1991 through 1996 times all Net Credited Service prior to January 1, 2001.
- (3) The current early retirement reduction applied to a 1998 benefit of 1.4% of the sum of five-year average compensation for 1993 through 1997 times Net Credited Service as of December 31, 1997, plus total compensation for 1998.
- (4) The current early retirement reduction applied to an ongoing benefit of 1.4% of the sum of five-year average compensation for 1994 through 1998 times Net Credited Service as of December 31, 1998, plus total compensation after December 31, 1998, plus an extra bonus in 1997.

Schedule SB Attachment (Form 5500)—2020 Plan Year
 Nokia Retirement Income Plan
 EIN: 22-3408857 PN: 001

Prior Early Retirement Reduction and Retirement Eligibility

Employees who meet the following age and service requirements may retire with a service pension:

Age		Minimum Years of Net Credited Service
65	and	10
55	and	20
50	and	25
Any		30

For employees who retire with at least 30 years of Net Credited Service, the early retirement reduction is 0.25% (0.5% with less than 30 years) for each full or partial month by which the employee's age at retirement is less than 55 years.

Certain terminated vested participants may elect to receive pension benefits commencing prior to age 65 reduced on an actuarially equivalent basis.

Current Early Retirement Reduction and Retirement Eligibility

Employees may retire at age 50 or older with at least 15 years of Net Credited Service. The early retirement reduction is the product of 3% times the excess, if any, of 75 over the sum of age and Net Credited Service at retirement.

Certain terminated vested participants may elect to receive reduced pension benefits commencing prior to age 65 on an actuarially equivalent basis.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not subject to early retirement reduction.

In 2002, the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits. The special one-time opportunity was open until April 30, 2015.

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment Options

An employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Effective December 31, 2014, the cash-out threshold was increased to \$5,000 (effective with respect to distributions in connection with distribution election packages generated on or after January 1, 2015).

Any other employee who terminates with a vested accrued benefit prior to attaining early retirement eligibility may elect to commence receipt of pension benefits either immediately or deferred to any age up through age 65 in one of the following forms:

- Single Lump Sum of the present value of the deferred vested benefit if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.

Any employee who retires on or after attaining early or normal retirement eligibility may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

the employee is legally married.

- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married and the spouse provides written notarized consent.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, for former employees entitled to a deferred vested pension and whose annuity start date is January 1, 1998 or later, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

Effective January 1, 2008, the plan was amended to include language to comply with PPA'06 requirements (e.g. including Joint and 75% Survivor option, new mortality and interest assumptions).

Effective April 1, 2011, the Plan was amended to provide a lump sum option for service based active participants. Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.

Effective October 1, 2012, the Plan was amended to make the Transitional Leave of Absence (TLA) optional for Deferred Vested Pensioners (DVP) who have already attained age 65. Participants can elect to either commence their DVP benefit immediately or wait until they reach service-pension eligibility through TLA.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, an early retirement incentive program was offered to certain employees within five years of retirement eligibility. In this program age and service of the employees were increased by five years for retirement eligibility, early retirement discount and benefit accrual. Also, the participation rules were

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

improved to allow employees to participate immediately at hire regardless of age.

In 2001, 2002 and 2003 certain employees were involuntarily terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

Effective January 1, 2003, the death benefit of one year's pay at retirement was removed from the plan for retirees who retired prior to January 1, 1998. For employees retiring on or after January 1, 1998 the death benefit was removed effective January 1, 1998.

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a 50% joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65.

In the case of a vested active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death having elected a 50% joint and survivor annuity, and without any discount for early retirement.

 Nokia Retirement Income Plan
 EIN: 22-3408857 PN: 001

Employees Hired After 1998 and Employees of Acquired Companies

Account Balance Plan

Employees of companies acquired by Lucent after October 1, 1996 and management employees and non represented occupational employees hired after 1998 participate under an account balance design:

(1) Pay Credits:

Age	Percent of Previous Year's Pay
<30	3.00%
30–34	3.75%
35–39	4.50%
40–44	5.50%
45–49	6.75%
50–54	8.25%
55+	10.00%

- (2) Interest credits: 6.5% in 2000, 7% in 2001, 6.5% in 2002 and 4% thereafter.
- (3) Partial interest credits and pay credits will be given for the year in which an employee terminates.
- (4) Effective January 1, 2008, employees covered under the Account Balance Program of the Plan will be fully vested in their pension benefits in three years.
- (5) After December 31, 2009, participants in the Account Balance Program are no longer credited with pay credits.

AUSA

Effective March 1, 2007, the AUSA Consolidated Retirement Plan was merged into the ALRIP. Benefits for AUSA participants are currently frozen. The pension benefit under this plan has a cash balance feature.

ADN

Effective July 1, 2010, the Alcatel Data Networks Inc. Retirement Pension Plan was merged into the ALRIP. Benefits for ADN participants are currently frozen.

Schedule SB Attachment (Form 5500)—2020 Plan Year
Nokia Retirement Income Plan
EIN: 22-3408857 PN: 001

Cash Account Program (CAP)

Effective January 1, 2014, eligible employees of the Plan, on or after January 1, 2014, will participate in the Cash Account Program (CAP). The CAP will provide annual pay credit equal to 6% of eligible pay. Pay credits will earn annual interest credits of 4%, compounded monthly.

Effective January 1, 2017, Legacy Nokia employees begin participation in the NRIP with the same Cash Account Program (CAP) benefit as legacy Alcatel-Lucent employees.

Plan Amendments Prior to 2019

- Effective June 29, 2015, the ALRIP was amended to provide for a one-time voluntary Retiree Lump Sum Window (“RLSW”) for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the NRIP was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025, to permit transfers of excess pension assets for post-retirement life insurance benefits, in addition to transfers for post-retirement health benefits, and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled.
- Effective December 1, 2015, the NRIP was amended to transfer the assets and liabilities of certain identified LTPP participants and alternate payees from LTPP to the NRIP (“Phase IV-A Transfer”).
- Effective January 1, 2017, the name of the plan was changed from the Alcatel-Lucent Retirement Income Plan to the Nokia Retirement Income Plan.
- Effective January 1, 2017, the Plan was amended to add Nokia Networks US SON LLC and Nokia Solutions and Networks US LLC (Legacy Nokia) to the list of participating companies. Legacy Nokia employees begin participation in the NRIP with the same Cash Account Program (CAP) benefit as legacy Alcatel-Lucent employees.
- Effective December 31, 2017 at 11:59 p.m., the Nokia Solution and Networks Pension Plan (NSN) was merged with and into Nokia Retirement Income Plan.

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Plan Amendments After 2018

- Effective June 1, 2019, the Plan was amended to provide a pension benefit for deferred vested participants eligible for early commencement equal to the greater of the benefit payable under the plan's terms prior to the amendment and the actuarial equivalent of the deferred vested pension, based on Section 417(e) interest rate and mortality assumptions. This amendment applies only to the Service Based Program and the Lucent Pension Program.
- Effective July 1, 2020, the Plan was amended to provide an Enhanced Pay Credit under the Cash Account Program (CAP) to eligible employees. The additional pay credit is 6% of CAP-includible compensation. This amendment's effective date occurred after the valuation date and is not reflected in the valuation results shown.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

This Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA. Internal Revenue Service Notice 2021-48 allows a plan sponsor to make a deemed election not to apply the ARPA interest rate stabilization (for any purposes) for the 2020 plan year. Via this filing, Nokia will make that deemed election for the Nokia Retirement Income Plan.

Schedule SB Attachment (Form 5500)—2020 Plan Year
Nokia Retirement Income Plan
EIN: 22-3408857 PN: 001

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 5.00% to 5.25%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Alcatel-Lucent Retirement Income Plan (ALRIP) was established as of October 1, 1996 as a result of the restructuring of AT&T. Assets and liabilities for active, inactive, and retired participants in the AT&T Management Pension Plan (“AT&T MPP”) as of that date associated with the business of Lucent Technologies Inc. pursuant to the restructuring were spun off from the AT&T MPP to the Plan. The Plan provisions as of the date of the spin-off were the same as those of the AT&T MPP as of the date of the spin-off. All prior service and compensation under the AT&T MPP were counted for benefit and eligibility purposes under the Plan. At the time of the spin-off, the Plan was called the Lucent Technologies Inc. Management Pension Plan. The Plan was later renamed the Lucent Retirement Income Plan and, still later, the Alcatel-Lucent Retirement Income Plan.

Effective January 1, 2017, the name of the plan was changed from the Alcatel-Lucent Retirement Income Plan to the Nokia Retirement Income Plan (NRIP or the “Plan”).

Effective December 31, 2017, the Nokia Solutions and Networks Pension Plan was merged with and into the NRIP.

Plan Provisions

The Plan is a noncontributory defined benefit plan generally covering domestic management employees. During 2009, the Plan consisted of four distinct pension benefit programs: (1) the legacy-Lucent “Service-Based Program” (generally, for employees hired before 1999), (2) the legacy-Lucent “Account-Balance Program” (generally, for employees hired after 1998 and before 2008 and for employees of acquired companies), (3) the (frozen) plan design associated with the former AGCS Salaried Pension Plan, and (4) the (frozen) plan design

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

associated with the former Alcatel USA, Inc. (“AUSA”) Consolidated Retirement Plan. Effective December 31, 2009, benefit accruals under (1) and (2) were also frozen. The Plan provisions described herein are for the legacy-Lucent Service-Based Program and legacy-Lucent Account-Balance Program only (although, as noted, the values presented herein reflect the AGCS plan merger, the AUSA plan merger and the ADNI plan merger).

Certain participants can transfer their accumulated interest in the Plan to and from other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the Lucent Technologies Inc. Pension Plan to the Plan.

Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries (“2013 LTPP Transferees” of the Phase III transfer) from the LTPP to the Plan.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2001 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess NRIP assets to cover retiree medical claims.

Employees Hired Before 1999

Pension Amount

For a retirement or vested termination on or after October 19, 1993, but prior to January 1, 1997, the annual pension amount under NRIP was equal to item (1) below. For retirement or vested termination on or after January 1, 1997, but prior to January 1, 1998, it was equal to item (1) below, for monthly benefits paid prior to January 1, 1998, and it was equal to the greater of items (1) or (2) below for monthly benefits paid January 1, 1998, and thereafter. For retirement or vested termination on or after January 1, 1998, but prior to January 1, 1999, the annual pension amount under NRIP is equal to the greatest of items (1), (2) or (3) below. For retirement or vested termination on or after January 1, 1999, it is equal to the greatest of items (1), (2), (3) or (4) below.

- (1) The prior early retirement reduction applied to a frozen benefit of 1.6% of the sum of six-year average compensation for 1987 through 1992 times Net Credited Service as of December 31, 1992, plus total compensation for 1993 through 1997.
- (2) The prior early retirement reduction applied to a transition benefit of 1.6% of six-year average compensation for 1991 through 1996 times all Net Credited Service prior to January 1, 2001.
- (3) The current early retirement reduction applied to a 1998 benefit of 1.4% of the sum of five-year average compensation for 1993 through 1997 times Net Credited Service as of December 31, 1997, plus total compensation for 1998.
- (4) The current early retirement reduction applied to an ongoing benefit of 1.4% of the sum of five-year average compensation for 1994 through 1998 times Net Credited Service as of December 31, 1998, plus total compensation after December 31, 1998, plus an extra bonus in 1997.

Schedule SB Attachment (Form 5500)—2020 Plan Year
 Nokia Retirement Income Plan
 EIN: 22-3408857 PN: 001

Prior Early Retirement Reduction and Retirement Eligibility

Employees who meet the following age and service requirements may retire with a service pension:

Age		Minimum Years of Net Credited Service
65	and	10
55	and	20
50	and	25
Any		30

For employees who retire with at least 30 years of Net Credited Service, the early retirement reduction is 0.25% (0.5% with less than 30 years) for each full or partial month by which the employee's age at retirement is less than 55 years.

Certain terminated vested participants may elect to receive pension benefits commencing prior to age 65 reduced on an actuarially equivalent basis.

Current Early Retirement Reduction and Retirement Eligibility

Employees may retire at age 50 or older with at least 15 years of Net Credited Service. The early retirement reduction is the product of 3% times the excess, if any, of 75 over the sum of age and Net Credited Service at retirement.

Certain terminated vested participants may elect to receive reduced pension benefits commencing prior to age 65 on an actuarially equivalent basis.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not subject to early retirement reduction.

In 2002, the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits. The special one-time opportunity was open until April 30, 2015.

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment Options

An employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Effective December 31, 2014, the cash-out threshold was increased to \$5,000 (effective with respect to distributions in connection with distribution election packages generated on or after January 1, 2015).

Any other employee who terminates with a vested accrued benefit prior to attaining early retirement eligibility may elect to commence receipt of pension benefits either immediately or deferred to any age up through age 65 in one of the following forms:

- Single Lump Sum of the present value of the deferred vested benefit if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.

Any employee who retires on or after attaining early or normal retirement eligibility may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

the employee is legally married.

- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married and the spouse provides written notarized consent.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, for former employees entitled to a deferred vested pension and whose annuity start date is January 1, 1998 or later, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

Effective January 1, 2008, the plan was amended to include language to comply with PPA'06 requirements (e.g. including Joint and 75% Survivor option, new mortality and interest assumptions).

Effective April 1, 2011, the Plan was amended to provide a lump sum option for service based active participants. Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.

Effective October 1, 2012, the Plan was amended to make the Transitional Leave of Absence (TLA) optional for Deferred Vested Pensioners (DVP) who have already attained age 65. Participants can elect to either commence their DVP benefit immediately or wait until they reach service-pension eligibility through TLA.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, an early retirement incentive program was offered to certain employees within five years of retirement eligibility. In this program age and service of the employees were increased by five years for retirement eligibility, early retirement discount and benefit accrual. Also, the participation rules were

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

improved to allow employees to participate immediately at hire regardless of age.

In 2001, 2002 and 2003 certain employees were involuntarily terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

Effective January 1, 2003, the death benefit of one year's pay at retirement was removed from the plan for retirees who retired prior to January 1, 1998. For employees retiring on or after January 1, 1998 the death benefit was removed effective January 1, 1998.

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a 50% joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65.

In the case of a vested active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death having elected a 50% joint and survivor annuity, and without any discount for early retirement.

Employees Hired After 1998 and Employees of Acquired Companies

Account Balance Plan

Employees of companies acquired by Lucent after October 1, 1996 and management employees and non represented occupational employees hired after 1998 participate under an account balance design:

(1) Pay Credits:

Age	Percent of Previous Year's Pay
<30	3.00%
30–34	3.75%
35–39	4.50%
40–44	5.50%
45–49	6.75%
50–54	8.25%
55+	10.00%

- (2) Interest credits: 6.5% in 2000, 7% in 2001, 6.5% in 2002 and 4% thereafter.
- (3) Partial interest credits and pay credits will be given for the year in which an employee terminates.
- (4) Effective January 1, 2008, employees covered under the Account Balance Program of the Plan will be fully vested in their pension benefits in three years.
- (5) After December 31, 2009, participants in the Account Balance Program are no longer credited with pay credits.

AUSA

Effective March 1, 2007, the AUSA Consolidated Retirement Plan was merged into the ALRIP. Benefits for AUSA participants are currently frozen. The pension benefit under this plan has a cash balance feature.

ADN

Effective July 1, 2010, the Alcatel Data Networks Inc. Retirement Pension Plan was merged into the ALRIP. Benefits for ADN participants are currently frozen.

Schedule SB Attachment (Form 5500)—2020 Plan Year
Nokia Retirement Income Plan
EIN: 22-3408857 PN: 001

Cash Account Program (CAP)

Effective January 1, 2014, eligible employees of the Plan, on or after January 1, 2014, will participate in the Cash Account Program (CAP). The CAP will provide annual pay credit equal to 6% of eligible pay. Pay credits will earn annual interest credits of 4%, compounded monthly.

Effective January 1, 2017, Legacy Nokia employees begin participation in the NRIP with the same Cash Account Program (CAP) benefit as legacy Alcatel-Lucent employees.

Plan Amendments Prior to 2019

- Effective June 29, 2015, the ALRIP was amended to provide for a one-time voluntary Retiree Lump Sum Window (“RLSW”) for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the NRIP was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025, to permit transfers of excess pension assets for post-retirement life insurance benefits, in addition to transfers for post-retirement health benefits, and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled.
- Effective December 1, 2015, the NRIP was amended to transfer the assets and liabilities of certain identified LTPP participants and alternate payees from LTPP to the NRIP (“Phase IV-A Transfer”).
- Effective January 1, 2017, the name of the plan was changed from the Alcatel-Lucent Retirement Income Plan to the Nokia Retirement Income Plan.
- Effective January 1, 2017, the Plan was amended to add Nokia Networks US SON LLC and Nokia Solutions and Networks US LLC (Legacy Nokia) to the list of participating companies. Legacy Nokia employees begin participation in the NRIP with the same Cash Account Program (CAP) benefit as legacy Alcatel-Lucent employees.
- Effective December 31, 2017 at 11:59 p.m., the Nokia Solution and Networks Pension Plan (NSN) was merged with and into Nokia Retirement Income Plan.

Schedule SB Attachment (Form 5500)—2020 Plan Year

Nokia Retirement Income Plan

EIN: 22-3408857 PN: 001

Plan Amendments After 2018

- Effective June 1, 2019, the Plan was amended to provide a pension benefit for deferred vested participants eligible for early commencement equal to the greater of the benefit payable under the plan's terms prior to the amendment and the actuarial equivalent of the deferred vested pension, based on Section 417(e) interest rate and mortality assumptions. This amendment applies only to the Service Based Program and the Lucent Pension Program.
- Effective July 1, 2020, the Plan was amended to provide an Enhanced Pay Credit under the Cash Account Program (CAP) to eligible employees. The additional pay credit is 6% of CAP-includible compensation. This amendment's effective date occurred after the valuation date and is not reflected in the valuation results shown.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

This Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA. Internal Revenue Service Notice 2021-48 allows a plan sponsor to make a deemed election not to apply the ARPA interest rate stabilization (for any purposes) for the 2020 plan year. Via this filing, Nokia will make that deemed election for the Nokia Retirement Income Plan.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 5.00% to 5.25%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
