INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of the Lucent Technologies Inc. Pension Plan

Opinion

We have audited the financial statements of Lucent Technologies Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for pension benefits and of accumulated plan benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for pension benefits and of changes in accumulated plan benefits for the year ended December 31, 2021 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for pension benefits and accumulated plan benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for pension benefits and changes in its accumulated plan benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented

and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 and schedule of reportable transactions for the year ended December 31, 2021 are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of the Lucent Technologies Inc. Pension Plan (the Plan or LTPP) provides only general information. Participants and others should refer to the Plan document and the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established as of October 1, 1996 by Lucent Technologies Inc. (later known as Alcatel-Lucent USA Inc. and, since January 1, 2018, known as Nokia of America Corporation) (the Company and Plan Administrator). It is a successor to the AT&T Pension Plan, in effect as of September 30, 1996, with respect to individuals transferred to the Plan pursuant to the Employee Benefits Agreement dated as of February 1, 1996, as amended, between AT&T Corp. and the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Prior to December 31, 2005, the Plan covered both actively employed individuals as well as terminated and retired participants. On December 31, 2005, all actively employed participants in the Plan were transferred to a new plan established by the Company – the Lucent Technologies Inc. Retirement Plan, now called the Nokia Retirement Plan (the NRP) – leaving only terminated and retired participants in the Plan. Effective December 31, 2005, the Plan was closed to new participants, other than individuals who attain eligibility for a service pension or a disability pension under the provisions of the NRP; those NRP participants become participants in the LTPP on the day following their termination of employment. The associated assets and liabilities for such individuals' pension benefit are transferred from the NRP to the Plan. Effective January 1, 2011, NRP participants who are Business & Technical Associates who attain eligibility for a service pension or disability pension become participants in another defined benefit pension plan maintained by the Company – the Nokia Retirement Income Plan (the NRIP) – rather than the Plan.

Effective December 31, 2021, the Nokia Retirement Plan (NRP) was merged with and into the Plan, with the Plan being the surviving plan. As a result of the merger, net assets available for benefits of \$67,369 and accumulated benefit obligations of \$62,912 were transferred from the NRP.

Notes to Financial Statements (continued)

(In Thousands)

1. Description of the Plan (continued)

Since December 31, 2010, the Company has amended the Plan a number of times to implement various transfers of participants and beneficiaries from the Plan to the NRIP or to the NRP. These transfers – dubbed "Phase I," "Phase II," etc. – include a transfer of benefit obligations and assets from the Plan to the transferee plan. The transfers have been as follows:

- Phase I. On December 1, 2010, four groups of participants (and associated surviving spouses, contingent beneficiaries and alternate payees of such participants) were transferred to the NRIP: (i) participants who, when last actively employed by the Company or an affiliate of the Company that adopted the LTPP for the benefit of its eligible employees (a Participating Company), were represented for purposes collective bargaining by unions other than the Communications Workers of America (CWA) or the International Brotherhood of Electrical Workers (IBEW); (ii) participants who, when last actively employed by the Company or a Participating Company, were classified by their employer as "Lucent Business Assistants" (LBAs); (iii) participants who were transferred to the Plan from the AT&T Pension Plan (the AT&T Plan) and were, when last actively employed by the sponsor of the AT&T Plan or a Participating Company with respect to that plan, represented for purposes of collective bargaining by unions other than the CWA or the IBEW; and (iv) participants who were transferred to the Plan from the AT&T Plan and were, when last actively employed by the sponsor of the AT&T Plan or a Participating Company with respect to that plan, classified by their employer as nonrepresented occupational employees.
- *Phase II.* On December 1, 2011, the following group of beneficiaries was transferred to NRIP: surviving spouses and surviving contingent beneficiaries in pay status (i.e., receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.
- Phase III. On December 1, 2013, the following groups of participants and beneficiaries were transferred to the NRIP: (i) service pension eligible (SPE) participants who, when last actively employed, were not represented by the CWA or IBEW; (ii) non-SPE participants; (iii) alternate payees of participants who are in pay status as of September 1, 2013; and (iv) individuals who, as of September 1, 2013, are receiving payment of survivor benefits as the surviving spouses or surviving contingent beneficiaries of deceased participants who died prior to January 1, 2013.
- *Phase IV.* Phase IV was composed of three transfers as follows:
 - Phase IV-A. On December 1, 2015, two groups of participants and beneficiaries were transferred to NRIP: (i) all participants (former employees) in the LTPP as of December 1, 2015, except participants receiving or eligible to receive a service pension

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

or a disability pension who, when last actively employed by a Participating Company (or a predecessor) (or any other entity that was a Participating Company with respect to a prior version of the LTPP or a predecessor plan to the LTPP), were represented for purposes of collective bargaining by the CWA, and (ii) all alternate payees of participants (former employees) in payment status as of September 1, 2015.

- Phase IV-B. On December 1, 2015, the following group of beneficiaries was transferred to NRP: all surviving spouses in payment status as of September 1, 2015 except surviving spouses of participants (former employees) who died on or after January 1, 2015.
- Phase IV-C. On December 31, 2015, the following group of beneficiaries was transferred to NRP: surviving beneficiaries in deferred status as of December 2, 2015 except surviving beneficiaries of participants who died on or after January 1, 2015.

Since its establishment, the Plan has included provisions permitting the transfer and use of excess pension assets to pay for (or reimburse the Company for the cost of providing) post-retirement health benefits in accordance with Section 420 of the Internal Revenue Code of 1986, as amended (the Code). Effective October 1, 2015, the Plan was amended to permit such transfers and such use of excess pension assets to be made for post-retirement life insurance benefits, in addition to post-retirement health benefits, consistent with changes made to Section 420 by the Moving Ahead for Progress in the 21st Century Act (MAP-21). Effective December 1, 2015, the Plan was amended, *inter alia*, to permit transfers of excess pension assets, and the use of such assets, with respect to participants who elect to receive the value of their remaining annuity payments under the Plan in a lump-sum distribution or whose remaining annuity payments under the Plan are otherwise settled, such as through a transfer to another pension plan pursuant to Section 414(1) of the Code or through the purchase of an irrevocable annuity contract, in accordance with the terms of the Private Letter Ruling issued by the Internal Revenue Service (IRS) to the Company on December 19, 2014 (PLR 201511044).

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Contributions and actuarial method

Contributions to the Plan are determined on a going-concern basis by an actuarial cost method known as the Accrued Benefit Cost Method. Under this method, the projected benefit for each future event is allocated to each of the participant's years of service. The normal cost is equal to the actuarial present value of the benefits allocated to the current year and the actuarial accrued liability is equal to the actuarial present value of the total benefits allocated to years prior to the current year. The actuarial accrued liability for inactive participants was determined as the actuarial present value of the benefits expected to be paid. No normal costs are payable with respect to these participants. The minimum required contribution and the maximum permissible contributions are then determined as the sum of the normal cost for all employees, plus amortization, if any, on the initial unfunded liability, change in liability due to plan amendments, assumption changes and experience gain or loss.

Under the Pension Protection Act of 2006, plans are required to use the Accrued Benefit Cost Method to determine the actuarial accrued liability based on a limited choice of mortality and interest assumptions. Subsequent legislation affecting pension plan valuation assumptions are the Moving Ahead for Progress in the 21st Century Act (MAP-21), the Highway and Transportation Funding Act of 2014 (HATFA) and the American Rescue Plan of 2021 (ARPA). Effective January 1, 2021, Nokia elected to adopt ARPA. Contributions are determined as the sum of the normal cost and a fifteen-year amortization of unfunded liabilities.

The Company's funding policy is to contribute such amounts as are determined on an actuarial basis to meet the minimum funding requirements of ERISA, plus such additional amounts as the Company may determine to be appropriate. No contributions were due as of December 31, 2021 and 2020 under the minimum funding requirements of ERISA.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered to the Company through the valuation date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. The accumulated plan benefits as of December 31, 2021 and 2020 are based on census data as of those

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

dates. Benefits payable upon retirement, death, disability or withdrawal are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Aon. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to

reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The assumption used to determine the actuarial present value of accumulated plan benefits as of December 31, 2021 and 2020, includes a Qualified Beneficiary Ratio, which is based on actual employee experience.

The change in assumptions reflects an increase of \$2,133 due to the change in discount rate.

The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2021 and 2020 is the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2020. For employees and former employees, the employee rates with white collar adjustment for non-represented participants and blue collar adjustment for represented participants were applied. For contingent survivors, the contingent survivor rates with white collar adjustment for non-represented participants and blue collar adjustment for represented participants were applied.

Interest assumptions of 2.62% and 2.63% were used to determine the actuarial present values of accumulated plan benefits as of December 31, 2021 and 2020, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities and the present value of accumulated plan benefits. These significant estimates include the accumulated plan benefits and the fair value of investments. Actual results could differ materially from these estimates.

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

The actuarial present value of accumulated plan benefits is reported based on certain estimates and assumptions regarding the future. As of the date of these financial statements, the Company believes these estimates and assumptions concerning matters such as interest rates and participant demographics are reasonable. However, due to the uncertainties inherent in making any estimate or assumption, it is at least reasonably possible that actual results may differ materially from what has been estimated or assumed.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Inter-plan transfers, net

Inter-plan transfers represent transfers between the NRIP, NRP and the Plan. Inter-plan transfers are recorded on an accrual basis.

Administrative expenses

Certain expenses incurred to administer plan benefits are charged directly to the Plan as incurred or allocated to the Plan. These include, but are not limited to, allocable portions of certain salaries and fringe-benefit costs, and actuarial, pension payroll, recordkeeping, plan audit, and legal fees. All other plan administrative expenses are borne by the Plan Sponsor. Other administrative expenses and investment-related expenses are incurred at the Lucent Technologies Inc. Master Pension Trust (MPT) level.

Pension Benefit Guaranty Corporation (PBGC) premiums

The PBGC was created by ERISA to provide timely and uninterrupted payment of pension benefits. Premium expenses of the Plan are paid by the Plan.

Valuation of investments and income and expense recognition

The Plan's investments consist of its interest in the MPT (see Note 5) and its investment in a commingled fund. The investment in the commingled fund is valued at fair value based on the commingled fund's net asset value (NAV) as a practical expedient on the last business day of the Plan year as determined by the trust's manager. As of December 31, 2021 and 2020, there are no redemption restrictions and no unfunded commitments on the commingled fund.

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of significant accounting policies (continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income and administrative expenses are recorded on an accrual basis. Dividend income is recorded on investments held as of the ex-dividend dates. The net appreciation/(depreciation) in the fair value of investments includes gains and losses on investments bought and sold as well as held during the year. See Note 5 for additional information.

3. Tax status

No provision for income taxes has been made in the Plan's financial statements. In this regard, the Internal Revenue Service (IRS) determined, and informed the Company by a letter dated March 20, 2014, that the Plan is designed in accordance with the applicable provisions of the Code. Subsequent to this determination by the IRS, the Company has adopted various amendments to the Plan, none of which, in the view of the Company, affects the tax-qualified status of the Plan. With respect to the operation of the Plan, the Plan Administrator believes the Plan is being operated in compliance with applicable requirements of the Code. From time to time, the Plan Administrator may uncover operational errors with respect to the Plan, and, when it does, it takes appropriate steps to remedy such errors. In the view of the Company and the Plan Administrator, no such error has affected or affects the tax-qualified status of the Plan. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-qualified status.

U.S. GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Plan termination

The Plan may be terminated or amended at any time by the action of the Board of Directors of the Company. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Notes to Financial Statements (continued)

(In Thousands)

4. Plan termination

Subject to conditions set forth in ERISA, in the event of a Plan termination, distributions of the assets available for benefits will occur as follows:

- a. The Plan provides that the net assets available for benefits shall be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA,
- b. To the extent unfunded vested benefits then exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA, and
- c. To the extent that the net assets available for benefits exceed the amounts to be allocated pursuant to the priorities provided for in ERISA, such amounts will be allocated among participants pursuant to the priorities set forth in the Plan and ERISA.

On September 27, 2021, the Plan was amended to provide that, in the event of a termination of the Plan, any remaining balance in the pension fund (after making provision deemed adequate for the full amount of the pensions specified as payable in case of termination of the Plan) shall be distributed to the Company. Under applicable law, amendments of this type are not to be treated as effective until the end of the fifth calendar year following the adoption of the amendment. Accordingly, this new plan termination provision will not be treated as effective until December 31, 2026.

5. Interest in Lucent Technologies Inc. Master Pension Trust

Substantially all of the Plan's investments are in the MPT which was established for the investment of assets of pension plans of the Company. The Bank of New York Mellon (BNYM, the Trustee or Custodian) is the trustee and custodian of the MPT. The Trustee is responsible for custodial, recordkeeping and other trustee responsibilities pursuant to the Amended and Restated Defined Benefit Master Trust Agreement. Nokia Investment Management Corporation (NIMCO), a wholly-owned direct subsidiary of the Company, is the "named fiduciary" (within the meaning of ERISA) of the MPT and is the fiduciary with authority to direct the Trustee.

The MPT is structured with multiple Master Trust Units. Each Master Trust Unit represents a particular asset class sleeve within the MPT. Each participating plan owns units of the investment sleeves based on each participating plan's asset allocation policy.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

As of December 31, 2021, the Plan and the NRIP participate in the MPT. As of December 31, 2020, the Plan, the NRIP and the NRP participated in the MPT.

Effective December 31, 2021, the NRP merged with and into the Plan, with the Plan being the surviving plan.

Each participating plan has an undivided interest in the MPT's various investment sleeves. As of December 31, 2021 and 2020, the Plan's interest in the net assets of the MPT was 22.22% and 21.84%, respectively.

Investment sleeve data

The following table presents each investment sleeve and the percentage of ownership within the sleeve as of December 31, 2021 and 2020:

	NRIP		LTPP		NRP	
•	2021	2020	2021	2020	2021	2020

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

In the normal course of business, the MPT enters into contracts that contain indemnification clauses. The MPT's maximum exposure under these arrangements is unknown as this would involve future claims that may be against the MPT that have not yet occurred. However, based on operations to date, the MPT expects the risk of loss to be remote and accordingly has not accrued any related liabilities.

The Trustee allocates investment income, realized gains or losses, unrealized appreciation or depreciation and certain investment expenses including management fees to the participating plans on the basis of each participating plan's interest in the MPT. NIMCO directs the Trustee to redeem units from the MPT to provide proper liquidity for each participating plan's benefit payments and expenses.

Investment transactions are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date, except for certain dividends from non-U.S. securities which are recorded as soon as the information is available after the ex-dividend date. Realized gains or losses on the sale of all securities except for futures contracts are determined based on average cost. Distributions from limited partnerships are treated as income, realized gain or loss or return of capital based on information reported by the partnership. Net investment income from real estate and limited partnerships is recorded when distribution notices are received from the real estate properties or limited partnerships.

Total redemptions from the MPT	(1,991,995)
Net decrease in net assets	\$	(894,934)

Investment valuation

NIMCO's Valuation Committee (the Committee) oversees the implementation of the valuation policy. The Committee reviews the Custodian's pricing policies and procedures on an annual basis for reasonableness. The Committee also oversees the process of reviewing partnership and commingled fund financial statements where the NAV is used as a practical expedient for fair value. Additionally, the Committee reviews fair values provided by investment advisors for oil and gas positions and real estate investments. Meetings of the Committee occur on an as needed basis, but at least annually. The Committee is comprised of a group of individuals that have differing perspectives on the valuation process and includes staff persons from NIMCO's Operations, Compliance, Alternative Investments, Public Market Investments groups, and the United States (U.S.) Chief Investment Officer. The following discusses the Custodian's valuation process for specific investments.

Investments in securities traded on a national securities exchange or a listed market such as the National Association of Securities Dealers Automated Quotations (NASDAQ) National Market System, such as common stock and other equities, are valued at the last reported sales prices on the valuation date or if no sale was reported on that date, at amounts that the Committee and Custodian feel are most indicative of the fair value based on information that may include the last reported bid or ask prices on the principal securities exchanges or listed market on which such securities are traded. Government and U.S. Treasury obligations, fixed income securities, and securities not traded on an exchange or a listed market are valued at the bid price or the average of the bid and asked prices on the valuation date obtained from published sources where available or are valued with consideration of trading activity or any other relevant information, such as independent broker quotations.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Fair values of investments in private equity investments, publicly-traded investments and other securities for which market quotations are not readily available, or for which market quotations may be considered unreliable, are estimated in good faith by the investment advisors, and/or NIMCO under consistently applied procedures deemed to be appropriate in the given circumstances. The determination of fair value is based upon relevant factors, which may include, but not be limited to the following: comparisons with prices of comparable or similar securities, valuation-related information from issuers, third party valuation specialists, pricing models, discounted cashflow analysis, volatility, contractual prices of the underlying financial instrument, counterparty risk, or other indications of value relating to the investment. Due to the inherent uncertainties of valuation, the appraised values and estimated fair values reflected in the financial statements may differ from values that would be determined by negotiation between parties in a sales transaction, and the differences could be material.

Derivative instruments held in the MPT are recorded at fair value. Fair value of derivative instruments is determined using quoted market prices when available. Otherwise, fair value is based on pricing models that consider the time value of money, volatility, and the current market or contractual prices of the underlying financial instruments.

Investments in real estate consist primarily of wholly-owned property investments, the fair values of which are based predominantly upon appraisal reports prepared annually by independent real estate appraisers and reviewed quarterly by third party discretionary investment advisors. The appraisal report values are derived from a reconciliation of four approaches to value -- discounted cash flow, income capitalization, comparable sales and replacement cost. The MPT records real estate properties at their NAV which is the appraised value of the property adjusted for any loans, receivables and/or payables at the property level.

Private equity investments and certain real estate investments are made through limited partnerships that, in turn, invest in venture capital, leveraged buyouts, real estate, private placements and other investments where the structure, risk profile and return potential differ from traditional equity and fixed income investments. Absolute return investments are typically made through limited partnerships which are hedge funds that utilize a broad array of investment strategies, including but not limited to relative value, event-driven, equity long/short, directional/global macro, or a combination of all of these strategies. Investments in commingled funds consist of units owned in commingled fund investment vehicles which are primarily invested in domestic and emerging market equity securities.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

The limited partnerships and commingled funds report the NAV of the MPT's investments in such vehicles on a periodic basis to the MPT. Investments in limited partnerships and commingled funds are carried at fair value, which generally represent the MPT's proportionate share of net assets of limited partnerships that are organized as investment companies or that report their holdings at fair value and commingled funds as valued by the general partners or investment managers of these entities. The NAVs reported to the MPT by the management of the limited partnerships are net of management fees charged to the MPT's capital account in such limited partnerships. For those limited partnerships that do not carry their holdings at fair value, NIMCO will estimate fair value as described below.

NIMCO follows its valuation policy, and other due diligence and investment procedures, which includes evaluating information provided by management of these vehicles, to determine that such valuations represent fair value. If NIMCO determined that such valuations were not fair value, then NIMCO would provide an estimate of fair value in good faith in accordance with its valuation policy. Due to the inherent uncertainty of valuation for these investment vehicles, NIMCO's estimate of fair value for these limited partnerships may differ from the values that would have been used had a ready and liquid market existed for such investments, and such differences could be material.

The changes in fair values of the MPT's investments are recorded as net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT.

The MPT did not hold any individual investment that represented greater than 5% of the MPT's net assets as of December 31, 2021 and 2020.

As of December 31, 2021 and 2020, cash and cash equivalents were primarily comprised of cash, foreign cash and short-term investment funds managed by BNYM. The MPT considers all highly liquid investment instruments with a maturity of three months or less at the time of purchase to be cash equivalents. The carrying value of cash equivalents approximates fair value due to the short-term nature of these investments. As of December 31, 2021, cash, foreign cash and cash equivalents were \$873, \$842 and \$80,170, respectively. As of December 31, 2020, cash, foreign cash and cash equivalents were \$10,517, \$1,961 and \$150,463, respectively.

As of December 31, 2021 and 2020, due to/from broker was comprised of margin posted for futures contracts and swap collateral.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Foreign currency transactions

Assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the prevailing rates of exchange on the valuation date. Purchases and sales of investments are translated and recorded at rates of exchange prevailing when such investments were purchased or sold. Income and expenses are translated at rates of exchange prevailing when earned or accrued. The MPT does not isolate that portion of the results of operations resulting from changes in foreign currency exchanges rates on investments from fluctuations arising from changes in the valuation of investments. Accordingly, such foreign currency related gains and losses are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT.

Fair value of investments

In accordance with Accounting Standards Codification 820, Fair Value Measurement (ASC 820), fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the asset or liability at the measurement date (an exit price). ASC 820 requires enhanced classification and disclosures about financial instruments carried at fair value and establishes a fair value hierarchy that prioritizes the inputs used in valuation models and techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The types of investments that are classified at this level typically include equities, futures contracts, certain options and U.S. Treasury obligations.

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly (inputs include quoted prices for similar assets or liabilities in active markets, interest rates and yield curves, credit risk assessments, etc.). The types of investments that are classified at this level typically include fixed income securities, fixed income securities and repurchase agreements acquired with cash collateral, government agency securities, forward contracts, certain options, interest rate swaps, and credit default swaps.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Level 3 – Significant unobservable inputs for assets or liabilities. The types of assets and liabilities that are classified at this level include but are not limited to limited partnerships, private placement debentures, bank debt and real estate properties.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Furthermore, the fair value hierarchy does not correspond to a financial instrument's relative liquidity in the market or to its level of risk. Management assumes that any transfers between levels occur at the beginning of any period. Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. The inputs or methodology used for valuing investments and their classification in the fair value hierarchy are not necessarily an indication of the risk associated with those investments.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (a) This category includes investments in hedge funds that invest in both long and short investments primarily in U.S. common stocks. Management of the hedge funds has the ability to shift its investment positions to different market segments (value/growth), market capitalization (small/large cap) and net long/short exposure as agreed to in the subscription documents of such hedge funds. Investments in this category can be redeemed at any time subject to the redemption notice period and applicable investor level gate of each respective hedge fund. This category of hedge funds held no investments in side pockets*.
- (b) This category includes investments in hedge funds that invest in equities and fixed income to profit from economic, political and government driven events. As of December 31, 2021 and 2020, this category held 3.89% and 5.78%, respectively, of assets in side pockets*.
- (c) This category includes investments in hedge funds that pursue multiple strategies to diversify risks and reduce volatility. These multiple strategy hedge funds invest in common stock, fixed income securities, convertibles, distressed debt, merger arbitrage, macro and real estate securities. Investments in this category can be redeemed at any time subject to the redemption notice period and applicable investor level gate of each respective hedge fund. As of December 31, 2021 and 2020, this category held 0% and 0.01%, respectively, of assets in side pockets*. As of December 31, 2021 and 2020, 4.12% and 10.76%, respectively, of the assets in this category are being liquidated and distributions are expected to be received within the next year.
- (d) This category includes investments in hedge funds that involve taking simultaneous long and short positions in closely related markets in both equities and fixed income instruments. Investments in this category can be redeemed at any time subject to the redemption notice period and applicable investor level gate of each respective hedge fund. One of the hedge funds in this category has the potential for a fund level gate which, if triggered, could limit redemptions. This category of hedge funds has no investments held in side pockets*.
- (e) This category is designed to take advantage of a specific and/or timely investment opportunity due to a market dislocation or similar event. This investment cannot be redeemed. Distributions from the fund are expected to be received within the next two to five years at the end of the investment period.
- (f) This category generally refers to strategies that are more directional in nature, although they can shift opportunistically between having a directional bias and a non-directional bias. Investments in this category can be redeemed at any time subject to the redemption notice period and applicable investor level gate of each respective hedge fund. This category of hedge funds has no investments held in side pockets*.
- ^(g) This category includes real estate funds that invest in the U.S., Europe and Asia. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

funds will be received by the MPT as the underlying assets in each fund are liquidated, typically a period of five to ten years from a fund's inception.

- (h) This category includes venture capital funds that typically invest in equity securities of start-up and growth-oriented companies primarily domiciled in the U.S. The venture capital funds are invested across various sectors including information technology, healthcare, and consumer. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically a period of five to ten years from a fund's inception.
- (i) This category includes buyout funds that typically invest in the equity of mature operating companies primarily domiciled in the U.S. and Western Europe. The buyout funds are invested across various sectors including information technology, consumer, healthcare, industrials, financials and communication. The fair values of the investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from a fund's inception.
- (i) This category includes fund of funds, debt funds and distressed-oriented funds, structured as private equity vehicles. The special situation funds may invest in debt securities, equity securities or limited partnerships primarily domiciled in the U.S., Asia and Western Europe. The special situations funds are generally diversified across sectors. The fair values of investments in this category have been estimated using the NAV of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions are received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from a fund's inception.
 - * A side pocket is a type of account utilized in hedge funds to segregate riskier or illiquid assets from more liquid investments. Usually, once a position enters a side pocket account, only the current participants in the hedge fund are entitled to a share of it. Future investors will not receive a share of the proceeds should the asset's returns become realized.

Guarantees and commitments

In the normal course of trading activities, the MPT will trade and hold certain derivative contracts which constitute guarantees under U.S. GAAP. Such contracts include written put options and credit default swaps where the MPT is providing credit protection on an underlying instrument. For credit default swaps, the credit rating obtained from external credit agencies, reflects the current status of the payment/performance risk of a credit default swap. Management views performance risk to be high for derivative contracts whose underlying credit ratings are below BBB-.

Securities lending

The MPT participates in agency securities lending programs with BNYM and Securities Finance Trust Company (SFTC). The securities lending agreements require that the MPT receive U.S. Dollar cash or securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities, or certain sovereign debt securities as collateral for securities on loan. Collateral equaling 102% of the fair value of domestic securities and 105% of the total fair value of non-U.S. securities on loan is required in accordance with the agreements. As of December 31, 2021 and 2020, the fair value of the securities on loan was \$6,137,799 and \$5,204,021, respectively. Such securities are recorded on the statements of net assets of the MPT. The MPT received collateral from borrowers in the form of cash and securities. The MPT has the ability to repledge (rehypothecate) the cash, however the securities cannot be repledged. As of December 31, 2021 and 2020, the MPT held cash collateral of \$6,234,972 and \$5,301,300, respectively, in connection with loaned securities. The cash collateral was used to enter into repurchase agreements and to purchase various securities consistent with the investment guidelines including instruments issued or fully guaranteed by the U.S. Government or Federal Agencies, certain floating rate notes, commercial paper, certificates of deposit and time deposits. The fair value of these investments acquired with the cash collateral are \$6,235,076 and \$5,302,083 as of December 31, 2021 and 2020, respectively, and are included in the fixed income securities and repurchase agreements acquired with cash collateral on the statements of net assets of the MPT.

The securities received as collateral for loaned securities which cannot be sold or repledged included U.S. Treasuries and certain sovereign debt securities with fair values of \$53,593 and \$126,204 as of December 31, 2021 and 2020, respectively. Such securities are not reflected in the MPT's assets and liabilities. The MPT received interest and securities lending income, net of bank fees, in the amount of \$10,355 in 2021 from the securities lending programs; this income is included in other income on the schedule of changes in net assets of the MPT.

Under the repurchase agreements, the MPT acquires a security for cash subject to an obligation by the counterparty to repurchase, and the MPT to resell, the security at an agreed upon price and time. In these transactions, the MPT takes possession of securities collateralizing the repurchase agreement. The collateral is marked to market daily to ensure that the fair value of the assets remains sufficient to protect the MPT in the event of default by the seller. As of December 31, 2021 and 2020, repurchase agreements entered into with cash collateral were valued at amortized cost of \$3,628,174 and \$2,672,286, respectively, and the fair value of securities which the MPT held as collateral with respect to such repurchase agreements was \$3,883,668 and \$2,878,291, respectively. The amortized cost of the repurchase agreements approximates fair value and is recorded on the statements of net assets of the MPT in fixed income securities and repurchase agreements acquired with cash collateral.

Total	\$	_	\$	334,536	\$	1,980,250	\$	357,500	\$	2,672,286							

The MPT bears the risk of loss with respect to the investments purchased with the cash collateral except for repurchase agreements which are indemnified by BNYM and SFTC, respectively. BNYM and SFTC have agreed to indemnify the MPT in the case of default of any borrower pursuant to respective securities lending agreements.

6. Derivative financial instruments

In the ordinary course of business, the MPT enters into various types of derivative transactions through its discretionary investment advisors. Derivative contracts serve as components of the MPT's investment strategies and are utilized to hedge investments to enhance performance and reduce risk to the MPT, as well as for speculative purposes.

Under U.S. GAAP, the MPT is required to disclose its objectives and strategies for using derivatives by primary underlying risk exposure; information about the volume of derivative activity; and disclosures about credit-risk-related contingent features and concentrations of credit-risk derivatives. Additionally, U.S. GAAP requires the quantitative disclosures of the location and gross fair value of derivative instruments reported in the statements of net assets of the

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

MPT and the gains and losses generated from derivative investing activity during the year ended December 31, 2021 on the schedule of changes in net assets of the MPT.

The MPT invests in derivative contracts with underlying exposure to interest rate risk (interest rate risk contracts) which consist of interest rate swaps, futures contracts and option contracts on fixed income securities; equity risk (equity risk contracts) which consists of index futures and total return swaps; credit risk (credit risk contracts) which consist of credit default swaps and option contracts on credit default swaps; and foreign currency risk (foreign currency risk contracts) which consist of foreign exchange contracts.

Futures contracts

Futures contracts are commitments to purchase or sell securities based on financial indices at a specified price on a future date. The MPT's investment advisors use index futures contracts to manage both short-term asset allocation and the duration of the fixed income portfolio. Most of the contracts have terms of less than one year. The counterparty risk of futures contracts is limited because they are standardized contracts traded on organized exchanges and are subject to daily cash settlement of the net change in value of open contracts. Fluctuations in unrealized gains or losses related to futures contracts are recorded daily until realized on closing. Both realized and unrealized gains or losses are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. Futures contracts require collateral consisting of cash or liquid securities and daily variation margin settlements to be provided to brokers. Outstanding futures contracts held by the MPT consist primarily of S&P 500 index futures, Eurodollar futures, U.S. Treasury Note futures and exchange index futures. The total net fair value of futures contracts as of December 31, 2021 and 2020 was \$5,285 and (\$4,746), respectively, and is included in derivative contracts assets and liabilities on the statements of net assets of the MPT.

Forward foreign exchange contracts

In a forward foreign exchange contract, one currency is exchanged for another on an agreed upon date at an agreed upon exchange rate. The MPT's investment advisors use forward foreign exchange contracts to manage the currency risk inherent in owning securities denominated in foreign currencies and to enhance investment returns. Risks arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from fluctuations in the value of a foreign currency relative to the U.S. dollar. Most of the contracts have terms of ninety days or less and are settled in cash. The change in fair value of such contracts is recorded by the MPT as an unrealized gain or loss in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. When the contract is closed,

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

the MPT records a realized gain or loss equal to the difference between the cost of the contract at the time it was opened and the value at the time it was closed. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in the fair value of investments on the schedule of changes in net assets of the MPT.

As of December 31, 2021 and 2020, the MPT held open forward foreign exchange contracts receivable and payable primarily in Australian Dollars, Swedish Krona, Japanese Yen, Swiss Franc, British Pounds, Canadian Dollars, Euros and U.S. Dollars. The total net fair value of forward foreign exchange contracts as of December 31, 2021 and 2020 was (\$801) and (\$1,202), respectively, and is included in derivative contracts assets and liabilities on the statements of net assets of the MPT.

Options

Options are contracts that give the buyer the right, but not the obligation, to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract's stated expiration date. Premiums paid for options purchased are recorded as investments and premiums received for options written/sold are recorded as liabilities. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is realized as a gain or loss. When an option expires, the premium is realized as a gain for options written or as a loss for options purchased. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. The risks include price movements in the underlying securities, the possibility that options markets may be illiquid, or the inability of the counterparties to fulfill their obligations under the contracts.

As of December 31, 2021 and 2020, the MPT held written option contracts with a fair value of (\$29) and (\$60), respectively, which are included in derivative contracts liabilities on the statements of net assets of the MPT. The written option contracts are primarily options on government note and bond futures, interest rate and credit default swaps, and agency mortgage-backed securities. As of December 31, 2021 and 2020, the MPT held no purchased options.

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

Swap contracts

Swap contracts involve the exchange by the MPT with another party of their respective commitments to pay or receive a series of cash flows calculated by reference to changes in specified prices or rates throughout the lives of the agreements. A realized gain or loss is recorded upon termination or settlement of swap agreements. Unrealized gains or losses are recorded based on the fair value of the swaps. Both realized and unrealized gain and loss are included in net appreciation/(depreciation) in fair value of investments on the schedule of changes in net assets of the MPT. The investment advisors retained by the MPT enter into interest rate swaps as part of their investment strategy to hedge exposure to changes in interest rates and to enhance investment returns. The investment advisors also enter into credit default swaps in order to manage the credit exposure in the portfolio and to enhance investment returns.

A credit default swap represents an agreement in which one party, the protection buyer, pays a fixed fee, the premium, in return for a payment by the other party, the protection seller, contingent upon a specified default event relating to an underlying reference asset or pool of assets. While there is no default event, the protection buyer pays the protection seller the periodic premium. If the specified credit event occurs, there is an exchange of cash flows and/or securities designed so that the net payment to the protection buyer reflects the loss incurred by creditors of the reference credit in the event of its default. The nature of the credit event is established by the buyer and seller at the inception of the transaction and such events include bankruptcy, insolvency, rating agency downgrade and failure to meet payment obligations when due. Risks may arise from unanticipated movements in interest rates or the occurrence of a credit event whereby changes in the market values of the underlying financial instruments may be in excess of the amounts shown in the statements of net assets of the MPT.

As of December 31, 2021 and 2020, the MPT had outstanding swap contracts consisting primarily of interest rate swap and credit default swap contracts. The fair value of swap contracts that is included in assets under derivative contracts in the statements of net assets of the MPT as of December 31, 2021 and 2020 was \$3,838 and \$3,416, respectively. The fair value of swap contracts that are included in liabilities under derivative contracts in the statements of net assets of the MPT as of December 31, 2021 and 2020 was (\$4,706) and (\$4,942), respectively.

The MPT utilizes its investment advisors to conduct derivative trading on its behalf. Investment advisors enter into International Swaps and Derivatives Association (ISDA) Master Agreements with counterparties. The ISDA Master Agreements contain master netting arrangements that allow amounts owed from the counterparty to be offset with amounts payable to the same counterparty within the same investment advisors account within the MPT. Each investment advisor retains separate ISDA agreements with the MPT's counterparties. Cash collateral associated with the derivatives has not been added or netted against the fair value amounts.

Information about derivative instruments and derivative activity

The following table sets forth the gross fair value of MPT's derivative asset and liability contracts by major risk type as of December 31, 2021 and 2020, and their location on the fair value hierarchy table in Note 5. The fair value of the various derivative asset and liability contracts are included in the derivative contracts assets and liabilities on the statements of net assets of the MPT. The fair values of these derivatives are presented on a gross basis, prior to the application of the impact of counterparty and collateral netting as permitted by the MPT's investment advisors' bilateral ISDA Master Agreements.

6. Derivative financial instruments (continued)

Credit-risk contingent features

The MPT's derivative contracts are subject to ISDA Master Agreements at the investment advisor account level. The ISDA agreements contain certain covenants and other provisions that may affect the investment advisors account within the MPT in situations where the MPT is in a net liability position with its counterparties. These provisions require the MPT's investment advisor's account within the MPT to maintain a certain level of net assets or limit the size of certain liability positions. If the MPT were not to meet such provisions, the counterparties to the derivative instruments could, depending on the nature of the agreements, either require the account to post additional collateral in amounts representing a multiple of the original collateral amounts required pursuant to the ISDA Master Agreements or terminate their derivative positions with the account and request immediate payment on all open derivative contracts, after the application of master netting arrangements (credit-risk-related contingent features).

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position, prior to the application of master netting arrangements, as of December 31, 2021 and 2020 was (\$4,706) and (\$4,942), respectively, for which the MPT had posted collateral of \$0 and 0, respectively, in the normal course of business. As of December 31, 2021, the MPT had \$3,838 of derivative asset positions that can be utilized as part of the master netting agreement to offset these derivative liabilities. If the credit-risk-related contingent features underlying these instruments in a liability position had been triggered as of December 31, 2021 and 2020 (after offsetting any applicable collateral), and the MPT had to settle these instruments immediately, the MPT would have been required to pay the total amount of the net liability stated above upon demand of the counterparties. The ultimate amounts that may be required as payment to settle the derivative positions in connection with the triggering of such credit contingency features as of December 31, 2021 may be different than the net liability amounts stated as of December 31, 2021 and such differences could be material.

Offsetting effects

The MPT is required to disclose the impact of offsetting assets and liabilities presented in the statements of net assets of the MPT to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. The assets and liabilities that would be subject to offsetting are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of setoff criteria: the amounts owed by the MPT to another party are determinable, the MPT has the right to set off the amounts owed with the amounts owed by the other party, the MPT intends to setoff, and the MPT's right of offset is enforceable by law.

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative financial instruments (continued)

When the MPT has a basis to conclude that a legally enforceable netting arrangement exists between the MPT and the counterparty, the MPT may offset these assets and liabilities in its statements of net assets of the MPT. The MPT records its derivative investments on a gross basis in the statements of net assets of the MPT.

The following tables provide disclosure regarding the potential effect of offsetting recognized assets and liabilities presented in the statements of net assets of the MPT had the MPT applied these netting provisions:

As of December 31, 2021:

	Gross Amounts not Offset in the Statement of Net Assets
Description	Assets Presented in the Statement of Net Assets on Financial Collateral a Gross Basis ¹ Instruments Received Net Amount
Securities lending ²	\$ 6,137,799 \$

As of December 31, 2020:

Description	in tl of N	ets Presented he Statement Net Assets on Gross Basis ¹		Collateral Received	Net Amount
Securities lending ²	\$	5,204,021	\$ -	\$ (5,204,021)	\$

¹ The MPT does not offset in the statements of net assets of the MPT.

² The amount of collateral presented is limited such that the net amount should not be less than zero.

Notes to Financial Statements (continued)

(In Thousands)

7. Risks

The MPT invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, credit, liquidity and risks associated with foreign investing. Additionally, the MPT bears certain risks related to conducting business with its counterparties. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in near term and that such changes could materially affect the amounts reported in the statements of net assets of the MPT.

Market risk is the risk of potential adverse changes to the value of financial instruments resulting from changes in market prices. If the markets should move against one or more positions in any of the financial instruments the MPT holds, the MPT could incur losses greater than the amounts reflected in the statements of net assets of the MPT. The MPT's exposure to market risk may be due to many factors, including the movements in interest rates, equities, foreign exchange rates, indices, market volatility, and security values underlying derivative instruments.

The MPT trades in derivatives (as described in Note 6), which may include financial futures contracts, forward foreign currency contracts, swaps, and options. These instruments contain, to varying degrees, elements of credit and market risk such that potential maximum loss is in excess of the amounts recognized in the financial statements. The contract or notional amounts of these instruments, which are not included in the financial statements, are indicators of the MPT's activities in particular classes of financial instruments but are not indicative of the associated risk which is generally a smaller percentage of the contract or notional amount. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are taken into consideration. The MPT is subject to market risk with regard to these instruments as it may not be able to realize benefits of the financial instruments and may realize losses, if the value of underlying assets moves unexpectedly because of changes in market conditions.

The MPT enters into forward foreign currency contracts, swaps, options and security lending with various counterparties; therefore, the MPT is exposed to credit risk with such counterparties. Management seeks to limit its credit risk by requiring its counterparties to provide collateral based upon the value of contractual obligations.

Credit risk is the risk that the MPT would incur losses if its counterparties failed to perform pursuant to the terms of their respective obligations or fulfill their obligations to repay amounts being held on behalf of the MPT.

The MPT has a substantial allocation to fixed income debt securities, and as a result, interest rate risk comprises the majority of the risk within the MPT. Interest rate risk is the risk that a fixed income investment's value will change due to a change in the absolute level of interest rates.

Notes to Financial Statements (continued)

(In Thousands)

7. Risks (continued)

The collateral provided by the counterparties is included in investments and due to brokers on the statements of net assets of the MPT. Furthermore, management requires the MPT's investment advisors have in place a well-defined counterparty selection and collateral process and procedures to transact its securities and other investment activities with broker-dealers, banks, and regulated exchanges that the Master Trustee and investment advisors consider to be well-established and financially sound.

The MPT invests in various U.S. and international equity and debt securities. The ability of the issuers of debt securities held by the MPT to meet their obligations may be affected by unique economic developments in a specific country, region, or industry. Until the fixed income securities are sold or mature, the MPT is exposed to credit risk relating to whether the bond issuer will meet its obligation when it becomes due. Failure of the bond issuer to make payments of principal or interest upon the default of the underlying security may result in losses to the MPT. Investing in securities of foreign entities involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign entities may be less liquid and their prices may be more volatile than those of comparable U.S. entities.

The MPT invests in private equity, real estate and absolute return investments, which may be illiquid, can be subject to various restrictions on resale, and there can be no assurance that the MPT will be able to realize the value of such investments in a timely manner. Certain absolute return investments are subject to a "lock up" period on the MPT's initial investment. As such, there is no assurance that the MPT can realize the value of certain absolute return investments in a timely manner. The MPT's investments in limited partnerships are subject to various risk factors arising from the investment activities of the underlying vehicles including market, credit and currency risk. Certain partnerships owned by the MPT may transact in short currency contracts, futures, written, and purchased options and swaps exposing the investee partnership to market risk such that potential maximum loss is in excess of the amounts recorded in the limited partnerships' financial statements. The MPT's risk of loss is limited to the value of the investments as of December 31, 2021 and 2020, including any unfunded commitments.

Notes to Financial Statements (continued)

(In Thousands)

8. Section 420 transfers

From time to time, pursuant to Section 420 of the Code, the Company transfers portions of the excess pension assets of the MPT held for the Plan to an account of the Plan under the MPT established under section 401(h) of the Code and/or to an account of the Plan under the MPT established under Section 420(a) of the Code (an applicable life insurance account) to pay for, respectively, retiree healthcare costs and retiree life insurance coverage for eligible retirees covered by the Company's agreement with the Unions regarding retiree healthcare benefits and life insurance coverage. These transfers constitute "collectively bargained transfers" within the meaning of Section 420(f) of the Code. During 2021, the Company made transfers of excess pension assets of \$50,000 to cover retiree health care costs for eligible retirees and \$39,997 to fund a portion of retiree life insurance coverage for eligible retirees.

In accordance with Section 401(h) and Section 420(a) of the Code, the Plan's investments in the 401(h) account may not be used for or diverted to any purpose other than providing health benefits for eligible participants as well as administration costs and the Plan's investments in the applicable life insurance account may not be used for or diverted to any purpose other than providing applicable life insurance coverage to eligible participants as well as administration costs. The related obligations for health benefits and applicable life insurance coverage are not reported in the Plan's Statements of Accumulated Plan Benefits but are reported as obligations in the Nokia Retiree Welfare Benefits Plan.

As of December 31, 2021 and 2020, 401(h) assets of \$126,049 and \$156,710, respectively, have yet to be transferred and are reflected as liabilities of the Plan. Investments held in the 401(h) account are valued using NAV as a practical expedient. As of December 31, 2021 and 2020, applicable life insurance assets of \$0 have yet to be transferred.

9. Party-in-interest and related-party transactions

As described in Note 2, the Plan paid certain administrative expenses of the Plan to various service providers that are deemed parties-in-interest under the provisions of ERISA. The payment of these expenses meets the requirements of one or more prohibited transaction exemptions under ERISA.

Certain MPT investments include fixed income and equity securities of Nokia Corporation (the ultimate parent of the Company). However, such fixed income and equity securities constitute "qualifying employer securities" within the meaning of section 407 of ERISA, and therefore these investments do not constitute non-exempt party-in-interest transactions.

Notes to Financial Statements (continued)

(In Thousands)

9. Party-in-interest and related-party transactions (continued)

Pursuant to a written fiduciary services agreement between the Company and NIMCO, NIMCO provides fiduciary services and investment management services to the MPT. NIMCO charges the MPT only for the costs that are incurred for providing such services to the MPT. For the year ended December 31, 2021, the MPT incurred fiduciary service fees from NIMCO of \$5,206, which are included in management fees and expenses on the schedule of changes in net assets of the MPT.

As of December 31, 2021 and 2020, the MPT had a payable due to NIMCO of \$2,459 and \$2,360, respectively, which is included in accrued expenses and other liabilities on the statements of net assets of the MPT.

The Company provides administrative services to the Plan and charges the Plan only for the costs that are incurred for providing such services. For the year ended December 31, 2021, the Plan incurred administrative service fees of \$72, which are reflected in administrative expenses on the statement of changes in net assets available for pension benefits.

10. Reconciliation of financial statements and Form 5500

The following is a reconciliation of net assets available for pension benefits per the financial statements to the Form 5500:

	December 31				
		2021		2020	
Net assets available for pension benefits per the					
financial statements	\$	5,329,399	\$	5,485,647	
Net assets held in 401(h) account		126,049		156,710	
Net assets available for benefits per the Form 5500	\$	5,455,448	\$	5,642,357	

The net assets of the 401(h) account and the applicable life insurance account included in the Form 5500 are not available to pay pension benefits but can be used only to pay retiree health benefits and applicable life insurance coverage, respectively.

LUCENT TECHNOLOGIES INC. PENSION PLAN

10. Reconciliation of financial statements and Form 5500 (continued)

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500 related to the 401(h) account and applicable life insurance account:

	Year Ended December 31, 2021									
	An	ounts per			Applicable					
	F	inancial		401(h)	Life Insurance	Amounts per				
	St	atements		Account	Account	Form 5500				
Interest income	\$	2	\$	143	\$ -	\$ 145				
Transfer to 401(h) account		(50,000)		50,000	_	_				
Transfer to applicable life										
insurance account		(39,997)		_	39,997	_				
Benefit payments		(302,710)		(75,254)	(39,997)	(417,961)				
Administrative expenses and PBGC										
premiums		(3,422)		(5,550)	_	(8,972)				

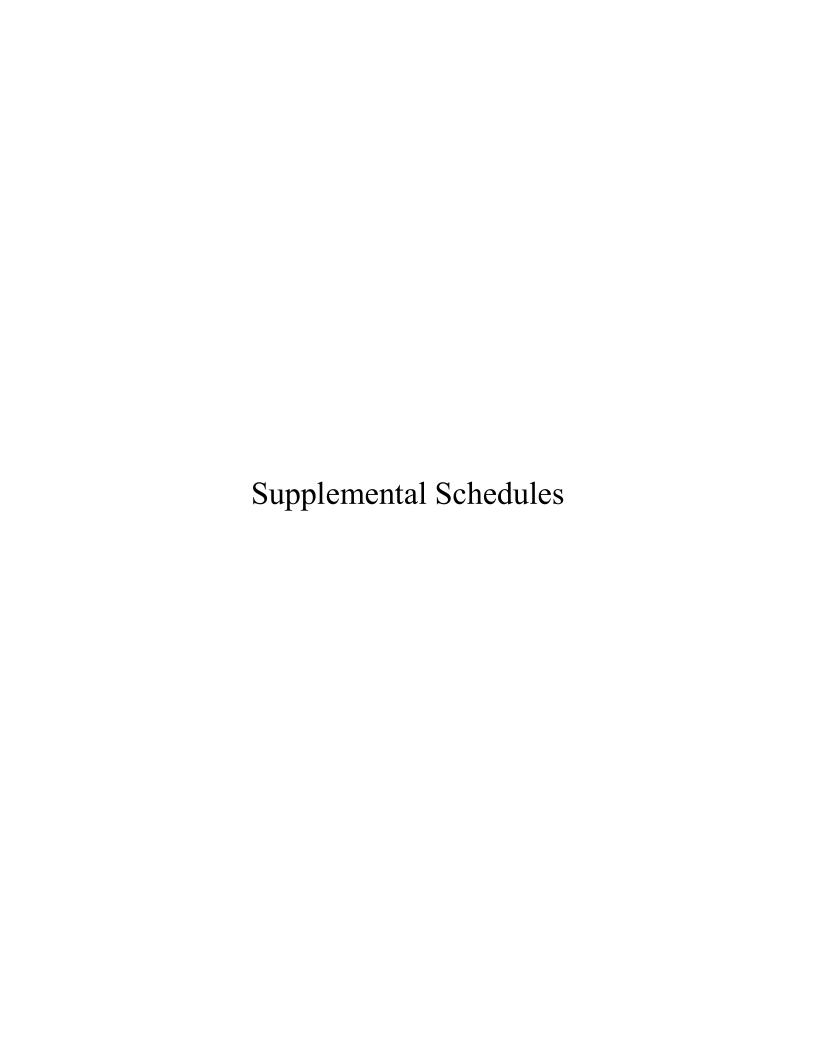

The following is a reconciliation of the net decrease before transfers per the financial statements to net income per the Form 5500 for the year ended December 31, 2021:

Net decrease before transfers per the financial statements	\$ (225,836)
Net decrease in 401(h) account	 (30,661)
Total net income per Form 5500	\$ (256,497)

The net assets and related activity of the 401(h) account and applicable life insurance account are not included in the financial statements but are included in the Form 5500 because the assets are held by the MPT.

11. Subsequent events

Management has evaluated subsequent events through September 15, 2022, the date the financial statements were available to be issued. There were no material subsequent events that occurred between January 1, 2022 through September 15, 2022 that required disclosure in the financial statements.

Percent of Participants Who Have Qualified

Beneficiaries

See Table 1

Middle of year decrements

Commencement Age for Participants Who Have

Not Yet Commenced

Age 65

Decrement Timing

Surviving Spouse Benefit

The female spouse of a male participant is assumed to be two years younger than the male participant. The male spouse of a female participant is assumed to be two years older than the female participant.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$230,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

liabilities for active and inactive participants were spunoff from the AT&T Pension Plan (AT&T PP) as of that date. The plan provisions of the spun-off plan were the same as those of the AT&T PP at the time of the spinoff. All prior service and compensation under the AT&T PP were also counted for benefit and eligibility purposes under the LTPP.

The Lucent Technologies Inc. Pension Plan ("LTPP" or

the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. The LTPP assets and

Plan Provisions

The Lucent Technologies Inc. Pension Plan is a noncontributory defined benefit plan. Effective December 31, 2005, the Plan covers only domestic nonmanagement retirees and terminated vested participants.

Certain participants can transfer their accumulated interest in the Plan to other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the LTPP to the ALRIP.

On December 29, 2011, the Plan was amended retroactive to January 1, 2011 to provide that the pensions of rehired Business & Technical Associates (BTAs) are to be transferred to ALRIP, rather than to the Lucent Technologies Inc. Retirement Plan ("LTRP").

In 2012, the Plan was amended for Section 420 transfers as a result of the Moving Ahead for Progress in the 21st Century Act (MAP-21). A transfer was most recently made on December 3, 2012.

EIN: 22-3408857 PN: 002

On December 28, 2012, the collective bargaining agreement with the CWA was extended for one year under the Agreement, active pension bands in the LTRP were increased 3.0%. The LTPP was amended to reflect this plan amendment which will apply to participants in the LTRP who retire on or after January 1, 2013.

Effective December 1, 2013, the ALRIP was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from the LTPP to the ALRIP.

Effective October 1, 2014, there was an agreement between the Company and the CWA that was signed on August 13, 2014 to increase the pension band monthly benefit amounts with respect to participants who retire on or after October 1, 2014 by 3.0%. The Plan was amended December 19, 2014 to reflect this plan amendment.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2002 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LTPP assets to cover retiree medical claims.

Retirement Eligibility and Early Retirement Reduction

Service pensions are provided when the following conditions are met:

		Years of Net
Age		Credited Service
65	and	10
55	and	20
50	and	25
Any age	and	30

If the employee has less than 30 years of service, the service pension amount is discounted by one-half percent (0.5%) for each full or partial month by which the employee's age at retirement is less than 55 years. If the employee has at least 30 years of service, the service pension amount is not discounted for age.

The monthly pension amount prior to any early retirement reduction is determined as the sum of the following:

Pension Amount

Minimum

EIN: 22-3408857 PN: 002

(1) The dollar amount corresponding to the appropriate pension band assigned to an employee (See Pension Band Table at the end of this summary) multiplied by the employee's years and months of service at retirement, or termination, if earlier.

(2) The product of (1) .001, (2) the employee's average annual amount of differentials and other special payments paid over the last 36 months of service and (3) the employee's years and months of service.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not discounted for age.

In 2002 the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits. The special one-time opportunity was open until April 30, 2015.

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment

Any employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining one of the foregoing minimum age and net credited service requirements for retirement eligibility may elect to commence receipt of pension benefits deferred to age 65 in one of the following forms:

EIN: 22-3408857 PN: 002

- In the case of CWA participants who terminate prior to service pension eligibility after June 1, 2001 a single lump sum of the present value of the deferred to 65 benefit (in the case of an employee who is legally married), if the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.

Any employee who retires on or after attaining one of the foregoing minimum age and net credited service requirements may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 8%.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married and the spouse provides written notarized consent. The actuarial reduction is 15%.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent. The actuarial reduction is 5%.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

EIN: 22-3408857 PN: 002

Effective January 1, 2008, the plan was amended to include language to comply with PPA'06 requirements (e.g. including new mortality and interest assumptions).

Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, 2002 and 2003 certain employees were involuntarily (in some cases voluntarily) terminated and offered additional benefits they could take as a pension or a lump sum.

Effective January 1, 2014, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2014 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.

Effective January 8, 2013, the Company amended the Plan to implement the terms of paragraph 7 of the 2013 Collective Bargaining Agreement Extension Memorandum of Agreement and the CWA related to the 2013 Special Voluntary Termination Program ("SVTP"). Under the SVTP, employees who volunteer are eligible for enhanced pension benefits.

Death Benefits

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65. In the case of an active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death, having elected a survivor annuity, and without any discount for early retirement.

EIN: 22-3408857 PN: 002

Certain mandatory beneficiaries of active employees and retired employees receiving Service or Disability Pensions are eligible for Death Benefits. For eligible beneficiaries of active employees, the benefit is equal to one year's pay at the date of death. For eligible beneficiaries of retired employees, the benefit is generally equal to one year's pay at retirement.

Plan Amendments Prior to 2020

- Effective January 5, 2015, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2015 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.
- Effective June 29, 2015, the Plan was amended to provide for a one-time voluntary Retiree Lump Sum Window ("RLSW") for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the Plan was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025 and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled.
- Effective December 1, 2015, the Plan was amended to (a) transfer the assets and liabilities of certain identified LTPP participants and alternate payees to the ALRIP ("Phase IV-A Transfer"); and (b) transfer the assets and liabilities of certain identified LTPP surviving spouses to the LTRP ("Phase IV-B Transfer").
- Effective December 31, 2015, the Plan was amended to transfer the assets and liabilities of certain identified LTPP surviving beneficiaries in deferred status to the LTRP ("Phase IV-C Transfer").
- Effective January 1, 2017, the Plan was amended to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2017.
- Effective January 1, 2019, the Plan was amended to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occur during 2019.
- Effective June 1, 2019, the Plan was amended to provide a pension benefit for deferred vested participants eligible for early commencement equal to the greater of the benefit payable under the plan's terms prior to the amendment and the actuarial equivalent of the deferred vested pension, based on Section 417(e) interest rate and mortality assumptions.

EIN: 22-3408857 PN: 002

Plan Amendments After 2019

- As a result of a bargaining agreement between the Company and the CWA that was ratified on October 9, 2020, the Plan was amended: (i) effective as of July 1, 2020, to increase the pension band monthly benefit amounts with respect to participants who retire on or after July 1, 2020 by 7.0%, (ii) effective as of October 26, 2020, to provide for certain additional benefits for certain employees who terminate employment pursuant to the 2020 Enhanced Special Termination Program ("ESTP"), and (iii) effective as of October 26, 2020, with respect to employees who terminate pursuant to the ESTP, to include special provisions for former AGCS participants.
- Effective July 1, 2020, the Plan was amended to provide the 7% pension band increase to (1) Lucent Business Assistants (LBAs) who are accruing a benefit under the plan and retire on or after July 1, 2020 and (2) Occupational Sickness and Accident Disability Benefit Arrangement (SADBA) participants who retire on or after July 1, 2020.
- Effective December 31, 2020, the Plan was amended to provide enhanced benefits to segment of "orphan" population (occupational employees receiving benefits under the legacy Sickness and Accident Disability Benefits Program) and to LBAs (employees classified as Lucent Business Assistants as of September 30, 2009).

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On September 27, 2021, Nokia made an explicit election to apply the ARPA interest rate stabilization and the extended shortfall amortization period under ARPA to the Lucent Technologies, Inc. Pension Plan for the 2021 plan year. Therefore, this Schedule SB reflects these elections.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

• A change in the unlimited expected rate of return on assets:

2019 Plan Year
 2020 Plan Year
 2021 Plan Year
 2021 Plan Year

- An experience study of the demographic assumptions was completed in 2020 and the following assumption updated:
 - o Qualified Beneficiary Ratio

The changes were made to better reflect the anticipated plan experience. The assumption changes did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

EIN: 22-3408857 PN: 002

Schedule SB, Line 13(a)—Carryover Balance at Beginning of Current Year

The carryover balance as of January 1, 2021 of \$447,558,806 reflects the following adjustments:

Amount	From	То	Description
\$ 15,879 \$ 3,253,557	NRP (PN 007) NRP (PN 007)	LTPP (PN 002) LTPP (PN 002)	2019 Internal Transfer 2020 Internal Transfer
\$ 21,668	LTPP (PN 002)	NRIP (PN 001)	True-up for internal transfers of certain participants during 2020 (referred to as Phase transfers)

Nokia Retirement Income Plan (NRIP) Lucent Technologies Inc. Pension Plan (LTPP) Nokia Retirement Plan (NRP)

EIN: 22-3408857 PN: 002

Schedule SB, Line 22—Description of Weighted Average Retirement Age

This plan covers only inactive participants and therefore there is no weighted average retirement age computed.

EIN: 22-3408857 PN: 002

Schedule SB, Part V—Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

Plan Provisions

The Lucent Technologies Inc. Pension Plan ("LTPP" or the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. The LTPP assets and liabilities for active and inactive participants were spunoff from the AT&T Pension Plan (AT&T PP) as of that date. The plan provisions of the spun-off plan were the same as those of the AT&T PP at the time of the spinoff. All prior service and compensation under the AT&T PP were also counted for benefit and eligibility purposes under the LTPP.

The Lucent Technologies Inc. Pension Plan is a noncontributory defined benefit plan. Effective December 31, 2005, the Plan covers only domestic non-management retirees and terminated vested participants.

Certain participants can transfer their accumulated interest in the Plan to other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the LTPP to the ALRIP.

On December 29, 2011, the Plan was amended retroactive to January 1, 2011 to provide that the pensions of rehired Business & Technical Associates (BTAs) are to be transferred to ALRIP, rather than to the Lucent Technologies Inc. Retirement Plan ("LTRP").

In 2012, the Plan was amended for Section 420 transfers as a result of the Moving Ahead for Progress in the 21st Century Act (MAP-21). A transfer was most recently made on December 3, 2012.

EIN: 22-3408857 PN: 002

On December 28, 2012, the collective bargaining agreement with the CWA was extended for one year under the Agreement, active pension bands in the LTRP were increased 3.0%. The LTPP was amended to reflect this plan amendment which will apply to participants in the LTRP who retire on or after January 1, 2013.

Effective December 1, 2013, the ALRIP was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from the LTPP to the ALRIP.

Effective October 1, 2014, there was an agreement between the Company and the CWA that was signed on August 13, 2014 to increase the pension band monthly benefit amounts with respect to participants who retire on or after October 1, 2014 by 3.0%. The Plan was amended December 19, 2014 to reflect this plan amendment.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2002 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LTPP assets to cover retiree medical claims.

Retirement Eligibility and Early Retirement Reduction

Service pensions are provided when the following conditions are met:

		Years of Net
Age		Credited Service
65	and	10
55	and	20
50	and	25
Any age	and	30

If the employee has less than 30 years of service, the service pension amount is discounted by one-half percent (0.5%) for each full or partial month by which the employee's age at retirement is less than 55 years. If the employee has at least 30 years of service, the service pension amount is not discounted for age.

Minimum

EIN: 22-3408857 PN: 002

Pension Amount

The monthly pension amount prior to any early retirement reduction is determined as the sum of the following:

- (1) The dollar amount corresponding to the appropriate pension band assigned to an employee (See Pension Band Table at the end of this summary) multiplied by the employee's years and months of service at retirement, or termination, if earlier.
- (2) The product of (1) .001, (2) the employee's average annual amount of differentials and other special payments paid over the last 36 months of service and (3) the employee's years and months of service.

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not

discounted for age.

In 2002 the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits. The special one-time opportunity was open until April 30, 2015.

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Any employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining one of the foregoing minimum age and net credited service requirements for retirement eligibility may elect to commence receipt of pension benefits deferred to age 65 in one of the following forms:

Disability Pension

Payment of Annuities

Form of Payment

EIN: 22-3408857 PN: 002

- In the case of CWA participants who terminate prior to service pension eligibility after June 1, 2001 a single lump sum of the present value of the deferred to 65 benefit (in the case of an employee who is legally married), if the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.

Any employee who retires on or after attaining one of the foregoing minimum age and net credited service requirements may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 8%.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married and the spouse provides written notarized consent. The actuarial reduction is 15%.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent. The actuarial reduction is 5%.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

EIN: 22-3408857 PN: 002

Effective January 1, 2008, the plan was amended to include language to comply with PPA'06 requirements (e.g. including new mortality and interest assumptions).

Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, 2002 and 2003 certain employees were involuntarily (in some cases voluntarily) terminated and offered additional benefits they could take as a pension or a lump sum.

Effective January 1, 2014, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2014 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.

Effective January 8, 2013, the Company amended the Plan to implement the terms of paragraph 7 of the 2013 Collective Bargaining Agreement Extension Memorandum of Agreement and the CWA related to the 2013 Special Voluntary Termination Program ("SVTP"). Under the SVTP, employees who volunteer are eligible for enhanced pension benefits.

Death Benefits

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65. In the case of an active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death, having elected a survivor annuity, and without any discount for early retirement.

EIN: 22-3408857 PN: 002

Certain mandatory beneficiaries of active employees and retired employees receiving Service or Disability Pensions are eligible for Death Benefits. For eligible beneficiaries of active employees, the benefit is equal to one year's pay at the date of death. For eligible beneficiaries of retired employees, the benefit is generally equal to one year's pay at retirement.

Plan Amendments Prior to 2020

- Effective January 5, 2015, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2015 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.
- Effective June 29, 2015, the Plan was amended to provide for a one-time voluntary Retiree Lump Sum Window ("RLSW") for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the Plan was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025 and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled.
- Effective December 1, 2015, the Plan was amended to (a) transfer the assets and liabilities of certain identified LTPP participants and alternate payees to the ALRIP ("Phase IV-A Transfer"); and (b) transfer the assets and liabilities of certain identified LTPP surviving spouses to the LTRP ("Phase IV-B Transfer").
- Effective December 31, 2015, the Plan was amended to transfer the assets and liabilities of certain identified LTPP surviving beneficiaries in deferred status to the LTRP ("Phase IV-C Transfer").
- Effective January 1, 2017, the Plan was amended to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2017.
- Effective January 1, 2019, the Plan was amended to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occur during 2019.
- Effective June 1, 2019, the Plan was amended to provide a pension benefit for deferred vested participants eligible for early commencement equal to the greater of the benefit payable under the plan's terms prior to the amendment and the actuarial equivalent of the deferred vested pension, based on Section 417(e) interest rate and mortality assumptions.

EIN: 22-3408857 PN: 002

Plan Amendments After 2019

- As a result of a bargaining agreement between the Company and the CWA that was ratified on October 9, 2020, the Plan was amended: (i) effective as of July 1, 2020, to increase the pension band monthly benefit amounts with respect to participants who retire on or after July 1, 2020 by 7.0%, (ii) effective as of October 26, 2020, to provide for certain additional benefits for certain employees who terminate employment pursuant to the 2020 Enhanced Special Termination Program ("ESTP"), and (iii) effective as of October 26, 2020, with respect to employees who terminate pursuant to the ESTP, to include special provisions for former AGCS participants.
- Effective July 1, 2020, the Plan was amended to provide the 7% pension band increase to (1) Lucent Business Assistants (LBAs) who are accruing a benefit under the plan and retire on or after July 1, 2020 and (2) Occupational Sickness and Accident Disability Benefit Arrangement (SADBA) participants who retire on or after July 1, 2020.
- Effective December 31, 2020, the Plan was amended to provide enhanced benefits to segment of "orphan" population (occupational employees receiving benefits under the legacy Sickness and Accident Disability Benefits Program) and to LBAs (employees classified as Lucent Business Assistants as of September 30, 2009).

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On September 27, 2021, Nokia made an explicit election to apply the ARPA interest rate stabilization and the extended shortfall amortization period under ARPA to the Lucent Technologies, Inc. Pension Plan for the 2021 plan year. Therefore, this Schedule SB reflects these elections.

Plan Name	Lucent Technologies Inc. Pension Plan
Plan Sponsor EIN	22-3408857
ERISA Plan No.	002
Plan Year End	12/31/2021

The required attachment noted below is included within the Accountant's Opinion attachment to the Form 5500 Schedule H, Part III, which consists of the entire Audit report issued by the Plan's Independent Qualified Public Accountant (IQPA).

Form/Schedule	Line Item	Description
5500 Schedule H	Line 4i	Schedule of Assets (Held at End of Year)

LUCENT TECHNOLOGIES INC. PENSION PLAN, PN 002 EIN 22 - 3408857 ATTACHMENT TO 2021 Schedule R (FORM 5500)

SCHEDULE R, Line 18 - Funded Percentage of Plans Contributing to the Liabilities of Plan Participants

Plan Name	EIN	PN	Funded Percentage
			as of 12/31/2020
Nokia Retirement Income	22-3408857	001	149.61%
Plan			
Lucent Technologies Inc.	22-3408857	002	150.14%
Pension Plan			
Nokia Retirement Plan	22-3408857	007	114.03%

Note: This plan is covered under the AT&T/Bell System Mandatory Portability Agreement related to the 1984 AT&T Divestiture of its Operating Telephone Companies and, as such, there will be transfers from time to time among the participating companies under this agreement.

EIN: 22-3408857 PN: 002

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

• A change in the unlimited expected rate of return on assets:

2019 Plan Year
 2020 Plan Year
 3.50%
 2021 Plan Year
 2.70%.

- An experience study of the demographic assumptions was completed in 2020 and the following assumption updated:
 - Qualified Beneficiary Ratio

The changes were made to better reflect the anticipated plan experience. The assumption changes did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
