The importance of preventive care

Protecting your and your family's health is one of the most important things you can do. Keeping a focus on regular preventive care can help you and your family get and stay healthier.

Preventive care, including regular medical checkups, screenings and immunizations, is important to maintaining your good health. It can help you avoid potentially serious health conditions and/or obtain early diagnosis and treatment. Generally, the sooner your doctor can identify and treat a medical condition, the better the outcome.

Talk with your doctor or other healthcare provider to determine the preventive care services that are appropriate for you and your family. Which services you should receive, and how often you should receive them, will depend on your current health, personal and family medical histories, age and gender, as well as any risk factors.

In addition, be sure to check with your carrier to confirm whether — and how — a particular preventive care service is covered.

Please note: If you are enrolled in a UnitedHealthcare® medical plan option, you can review <u>UnitedHealthcare's preventive care guidelines for children and adults here.</u>

Right care. Right place. Right savings.

Doctor's office. Virtual visit. Convenience care clinic. Urgent care center. Emergency room. You and your family have more options than ever when you need medical care.

UnitedHealthcare's **Check. Choose. Go.**® guide can help you make the right choice for your situation. You can access the guide directly at uhc.com/checkchoosego or here. (Note that the costs shown in these materials are not specific to the Nokia plans. See Benefits at-a-glance and resource contact information 2026 for your actual costs.)

Coming your way: IRS Form 1095-C

As required by the Affordable Care Act (ACA; healthcare reform), employers must provide IRS Form 1095-C to certain (but not all) plan participants each year. The form serves as proof that you met the ACA's requirement for having qualifying healthcare coverage during the year. If this applies to you, you should expect to receive your 2025 Form 1095-C no later than March 2, 2026.

Form 1095-C indicates the months of the year that you (and your dependents, if applicable) were offered or were enrolled in medical coverage during 2025. You may need Form 1095-C or the information it includes to file your federal tax return for 2025. Nokia cannot offer tax advice, so you might consider consulting a tax advisor for further guidance on Form 1095-C. (**Please note:** Form 1095-C will not replace any state forms you may receive that provide proof of medical insurance.)

Please note: For the 2025 tax year, California (CA), the District of Columbia (DC), New Jersey (NJ) and Rhode Island (RI) require copies of the federal 1095 tax forms (used to report healthcare coverage) for retirees who are residents during the tax year. Nokia has partnered with Alight to ensure compliance with these healthcare tax filling requirements, and 1095 data will be provided to CA, DC, NJ and RI as required.
